Part 1

Listen to the **dialogues 6 and 7**. The first one is between two friends (Luka and James), and the second one is between two colleagues (Jasna and Marko). Both dialogues happen at the university when their paths cross in the hallway as they are on their way to their classes. 🤔

Write down the key phrases from each dialogue - something that you can reuse later in your own conversation (something that would be appropriate for a situation in which you might find yourself).

Scenario 2: You are at the university and you see your professor in the hallway. Greet each other and make small talk. One of you needs to be the professor.
