EXPERIENCE

On-air.pro, Remote — Chief developer

JULY 2015 - PRESENT

Internet broadcast system. Composed few input video streams to single output on server side. Unlimited space for video archive. Broadcast servers created on demand. Inspired by [Denis Korolev](#) Ph.D., HSE, Moscow

Ship startup, Remote — Lead developer

FEBRUARY 2015 - NOVEMBER 2015

I bring project from state "no one can deploy" to "~300 green tests, weekly deploy, refactoring, new features"

Uppod.ru, Remote — Developer

NOVEMBER 2014 - FEBRUARY 2015

I develop an ad module VAST for HTML5 video player. It work on Desktop, iOS, Android. My code used by thousands websites in Russian.

For more detail about my experience, please, visit makridenkov.com.
