

Ways to enhance student engagement in learning activities

1. Make It Meaningful

Connect students' prior to new knowledge. Help them understand the significance of an activity in their real life.

2. Foster a Sense of Competence

Engage them in activities that are of the right level of proficiency. Facilitate peer support. Include constructive and encouraging feedback.

3. Provide Autonomy Support

Welcome students' opinions and ideas. Provide students with time to absorb knowledge.

4. Embrace Collaborative Learning

Let them work in groups; assign different roles; evaluate individual and group performance.

5. Establish Positive T.- S. relationships

Consider students' social and emotional needs, treat them fairly, show them you that you care.

6. Promote Mastery Orientations

Consider criterion-referenced approaches. Recognize student individual effort and progress.
