

Team Wildwood

Andrew, Elena, Renée, and Thomas

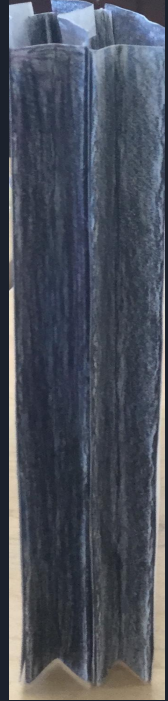

The big idea in my project is that nature is a beautiful and peaceful place you should relax in.

I tried to make the images pop out and stand out on its own and in the end I didn't end up with enough shadows. But overall I liked how my tunnel book turned out.

Hope Hope Hope Hope Hope Hope Hope Hope Hope Hope Hope Hope

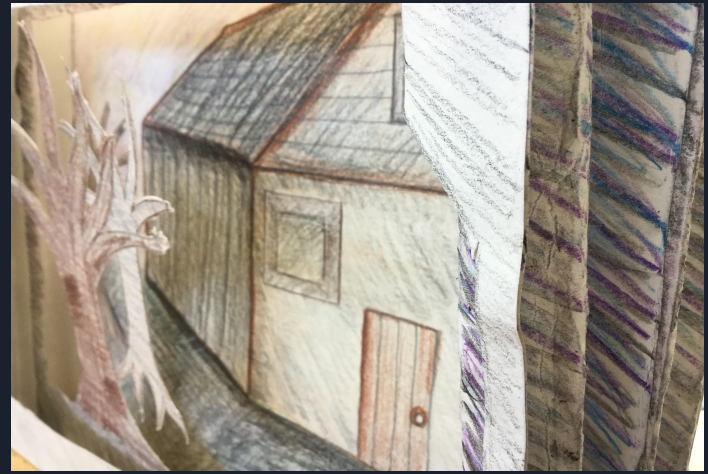

Big Idea: **Hope** will be the **light** that guides you and shows you the path in the darkness.

Art Critique: I am happy with how my tunnel book turned out. I think I had some good contrast with the light from the lamppost and the darker background, with a variety of values. The texture of the trees also came out well. I think I could have worked more on making it look more three dimensional, adding more perspective.

Elena: My Presentation

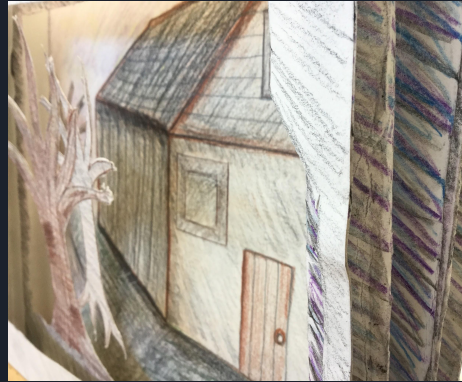

Main Idea: Look for the beauty in things.

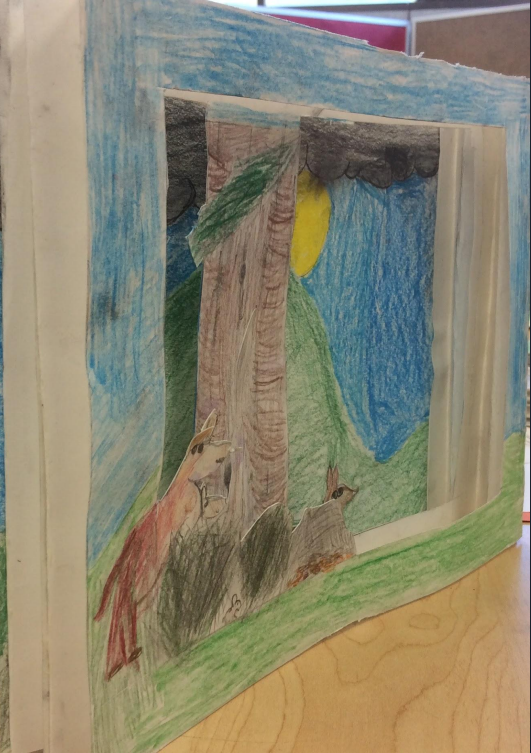

Elena

ART CRITIQUE

I think that I did well with the proportions of the objects in my tunnel book, however I think I could work on the color and making it look more like night time and more realistic. Also, I think that the texture of the trees and contrast in colors could be better to emphasize certain important objects more in the picture.

My project: Thomas Egan

Analysis

Thomas

My prided that was represented in my tunnel book was the light in nature.

Art critique: I liked the way my tunnel book turned out, I think I represented my idea well, nature was represented in my project by trees, bushes, deer, mountain, and the light is represented by the light colors I decided to use to color in it. I feel like I could've worked on taking my time while coloring to make better contrast in certain parts of the book like the sky, deer, and tree.

Conclusion: Teamwork and supporting each other
