# What is Avalon?

- Samvera solution bundle for audio and video **access**
- Jointly developed by IU and Northwestern; by IU since last year
- Supported by grants from the Mellon Foundation and IMLS
- Currently at version 7.1.1

The screenshot displays the Avalon Media System interface. At the top, the browser address bar shows the URL [https://pawpaw.dlib.indiana.edu/media\\_objects/m326m172d](https://pawpaw.dlib.indiana.edu/media_objects/m326m172d). The page header features the 'avalon MEDIA SYSTEM' logo. Below the header is a navigation bar with a 'Browse' button and a search input field. The main content area is split into two sections. On the left is a video player showing a man in a suit playing an organ. The video player includes a play button, a progress bar (00:12 / 01:03), and a 'Share' button. On the right is a metadata panel for the video 'Fête (Excerpt)'. The metadata includes:
