Engaging Researchers with Data Management: What Works?

October 2019, RDA Plenary 14, Helsinki

Yan Wang TU Delft

@yan_wang y.wang-16@tudelft.nl

So what works?

How to engage all researchers with RDM?

And how to avoid THIS? (and make them excited instead?)

How to re-use and stop re-inventing the wheel?

Word of mouth (and conferences) help...

...but is it really the best way?

Quest to find innovative ways in which institutions can engage researchers with research data

And make these findings accessible to others

Engaging researchers with research data - project in numbers -

- 30 + project members from 3 continents
- Created a survey to collect case studies
- Contacted 60 funders, 80 scientific institutions, and used
 28 mailing lists
- 216 responses, 88 described their activities
- 50 unique scientific institutions
- 24 cases selected for in-depth interviews and write up

Book sprint - to write up these case studies

https://www.rd-alliance.org/blogs/book-sprint-success-team-writing-exercise-win.html

Like in a cookbook:

We have identified the key necessary ingredients for each recipe

Each case has its own ingredient list

You can read the whole book...

or cherry-pick the most relevant cases

Quick preview

"Data Conversations" at Lancaster University

Little time? Little money?... but want a community of researchers talking with passion about data? Have it all with Data Conversations!

Data managers at Utrecht University

Pool of 'data managers' that can be flexibly hired and embedded within research teams to provide highly targeted RDM support. Embedded training for PhDs at UiT The Arctic University of Norway "PhDs are in most cases very positive about new developments and we should motivate them to do what is expected or required."

Connie Clare, Maria Cruz, Elli Papadopoulou, James Savage, Marta Teperek, Yan Wang, Iza Witkowska, and Joanne Yeomans
