

Ibelynx

Translation:

The “ibelynx”

This giant has the body of an iberian lynx, horns of an iberian ibex, and the tail of an iberian wolf. The lynx is endangered and the wolf is vulnerable.

El <<ibilince>>

Este gigante tiene cuerpo de lince ibérico, cuernos de íbice ibérico y cola de lobo ibérico. El lince está en peligro de extinción y el lobo vulnerable

Ibelynx

Big idea: Endangered biodiversity unknown to humans that needs our help.

This giant is a mix of unique Iberian animals to remind the Spanish people of the great biodiversity of the Iberian peninsula that is currently in danger and needs our help.

El <<ibilince>>

Este gigante tiene cuerpo de lince ibérico, cuernos de ibice ibérico y cola de lobo ibérico. El lince está en peligro de extinción y el lobo vulnerable
