

Thumbnails on Dashboard

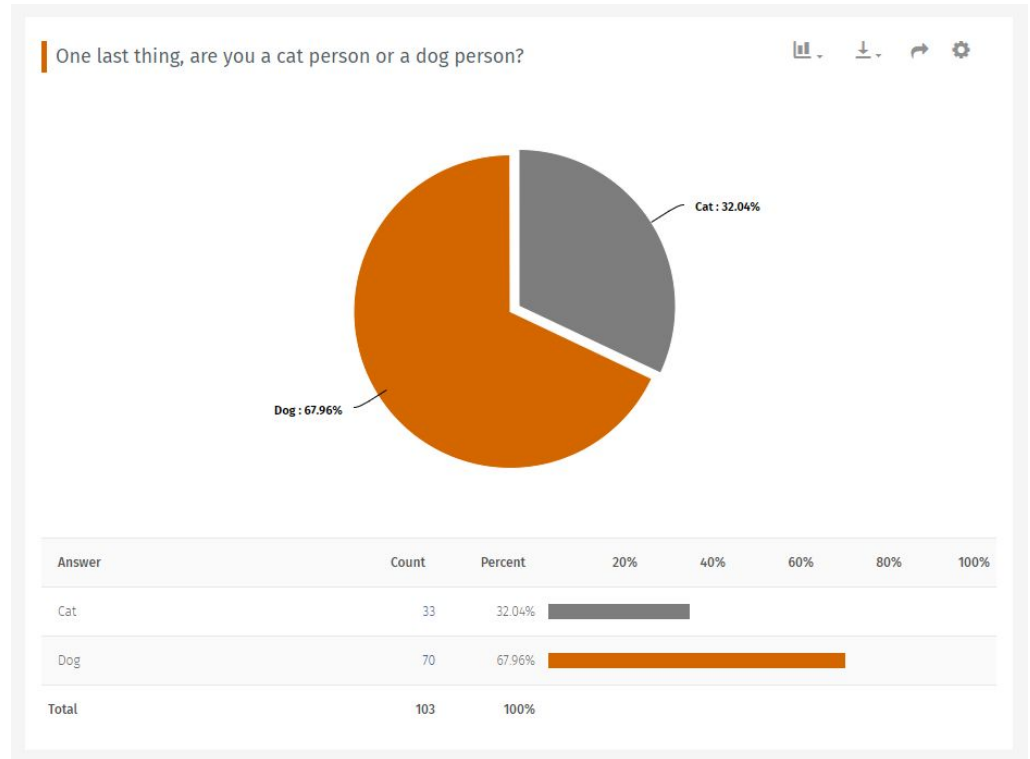

Why?

Problem

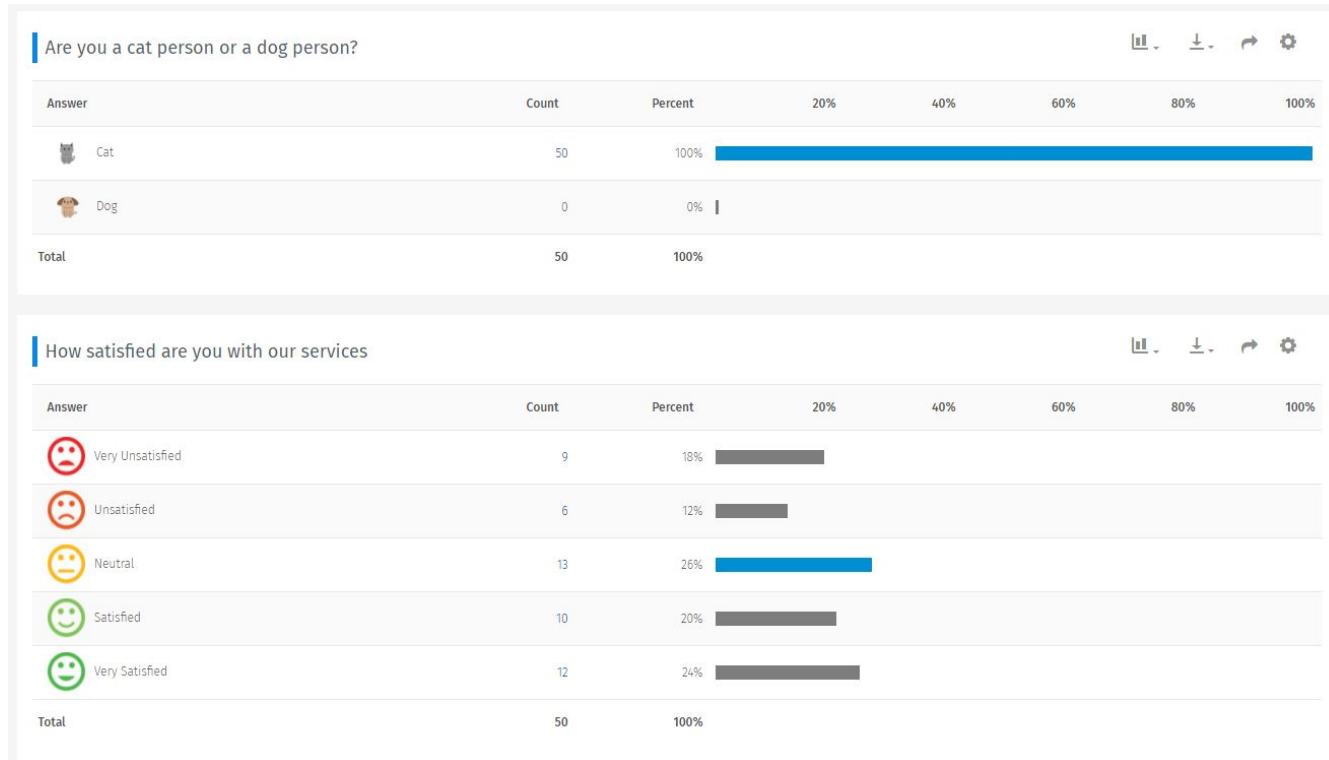

Currently, all images are not displayed on the dashboard. Image chooser question type images are not displayed. Currently images are displayed on dashboard only for the multiple choice questions.

User Story

Julie, as a researcher is conducting research on images. She is using image chooser question types however, currently the images are not displayed on the dashboard. So she has to add placeholder text to work around this problem.

Solution - Display images for all question types

Dashboard/Account/Org level setting to show/hide images

The screenshot shows the QuestionPro interface for a survey titled "QuestionPro Phone Research". The "Settings" tab is active, displaying various display options. The "Display Images" toggle is highlighted with a blue box. A callout box points to this toggle with the text: "Display Images setting will be on by default. Can be controlled on Dashboard/Account/Org levels".

Setting	Status	Setting	Status
Summary Card	On	Response Identifier	Response ID
Charts	On	Answer Sort Order	Default
Answer Option Data Table	On		
Statistical Calculations	Off		
Answer Option With No Data	Off		
Question Numbers	Off	Empty Text Responses	Off
Rollup Matrix Data	Off	Word Cloud	Off
Display Images	On
