What is our job as educators?

It’s our job to prepare students for a future that doesn’t exist.

“We need to work with the students we have. And not with the student I was.” -Rebecca Beck

So what is our responsibility?

SLIDESMANIA.COM

SLIDESMANIA.COM

We have a moral imperative to teach students about ChatGPT

ChatGPT with your class

Make Examples

Students can ask ChatGPT to create examples of complete assignments. Use this as a starting point for conversatiions

Self Analysis

Have ChatGPT analyse student work, then have students evaluate the analysis.

Stylize the work

Convert info to rap battles, poems, screenplays, etc. Students can then determine what's missing, etc

Debate

Have conversations w/ChatGPT taking one side of an argument. Ask it to take the opposite side.

Clarify

Students can use it to get clarification on unclear ideas.

Custom Content

Published Textbooks:

- 2-6 years
- Relevant/Interesting? 🎲
- Customized? 🤷🏾‍♀️

Use ChatGPT to create classroom content that is directly relevant to your students.

Teaching business to students who live in the Salinas Valley? Customize the content to focus on agricultural business.

Teaching history? Build content around your neighborhood!

Using ChatGPT in your workflow

SLIDESMANIA.COM

ChatGPT can be your TA:

Email

Write an email or Canvas announcement reminding students about HW, campus events, etc.

Simplify

Ask ChatGPT to simplify your writing to make it easier to understand.

Friendlify

If you're a direct person, ChatGPT can help soften the tone of your writing.

Lesson Plan

Build out your lesson plans and then fine-tune them for your needs. Try giving ChatGPT a timeline.

Letters of Rec

Include some parameters and achievements to include. Better than asking them to write their own!

Image Generation for Descriptive Writing

The Scream - Edvard Munch

“A man, standing on a pier with his hands on his cheeks looking shocked. The man is bald, and wearing black clothes. The art should be in oil paint style with long connected strokes. The background should be in orange tones.”

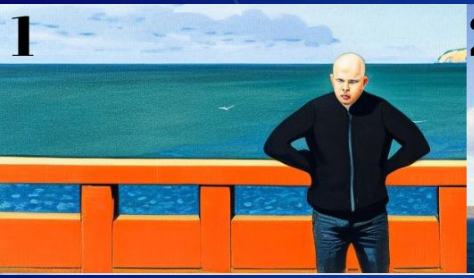
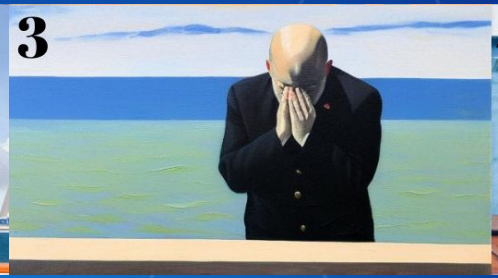
Explore variations (Canva Output)





#2) A bald man in black, standing on a pier with his hands on his cheeks looking shocked. The pier should start from the front right foreground to the back left background. The art should be in oil paint style with long connected strokes. The background should be in orange tones

#3) An abstract oil painting of a bald man in black, standing on a pier with his hands on his cheeks looking shocked. The pier should start from the front right foreground to the back left background. The background should be in orange tones.

#4) An abstract swirly orange oil painting of a bald man in black, standing on a pier with his hands on his cheeks looking shocked. The pier should have a vanishing point in the back left of the painting.

You can split your content.

Remember that most of our presentation templates allow you to change the colors by going into the master – this works both in PowerPoint and Google Slides – , so you can adapt them to your needs

Colors are emotional and evoke feelings. The right colors can help persuade and motivate, they can increase your audience's interest and improve learning comprehension and retention.

Did you know that pandas don’t hibernate?

When winter approaches, they head lower down their mountain homes to warmer temperatures, where they continue to chomp away on bamboo!

Did you know that a cat uses its whiskers as feelers to determine if a space is too small to squeeze through?

Also, cats love to sleep. A fifteen-year-old cat has probably spent ten years of its life sleeping.

Did you know that elephants can sense storms?

Elephants may be able to detect a thunderstorm from hundreds of miles away, and will head towards it, looking for water.
