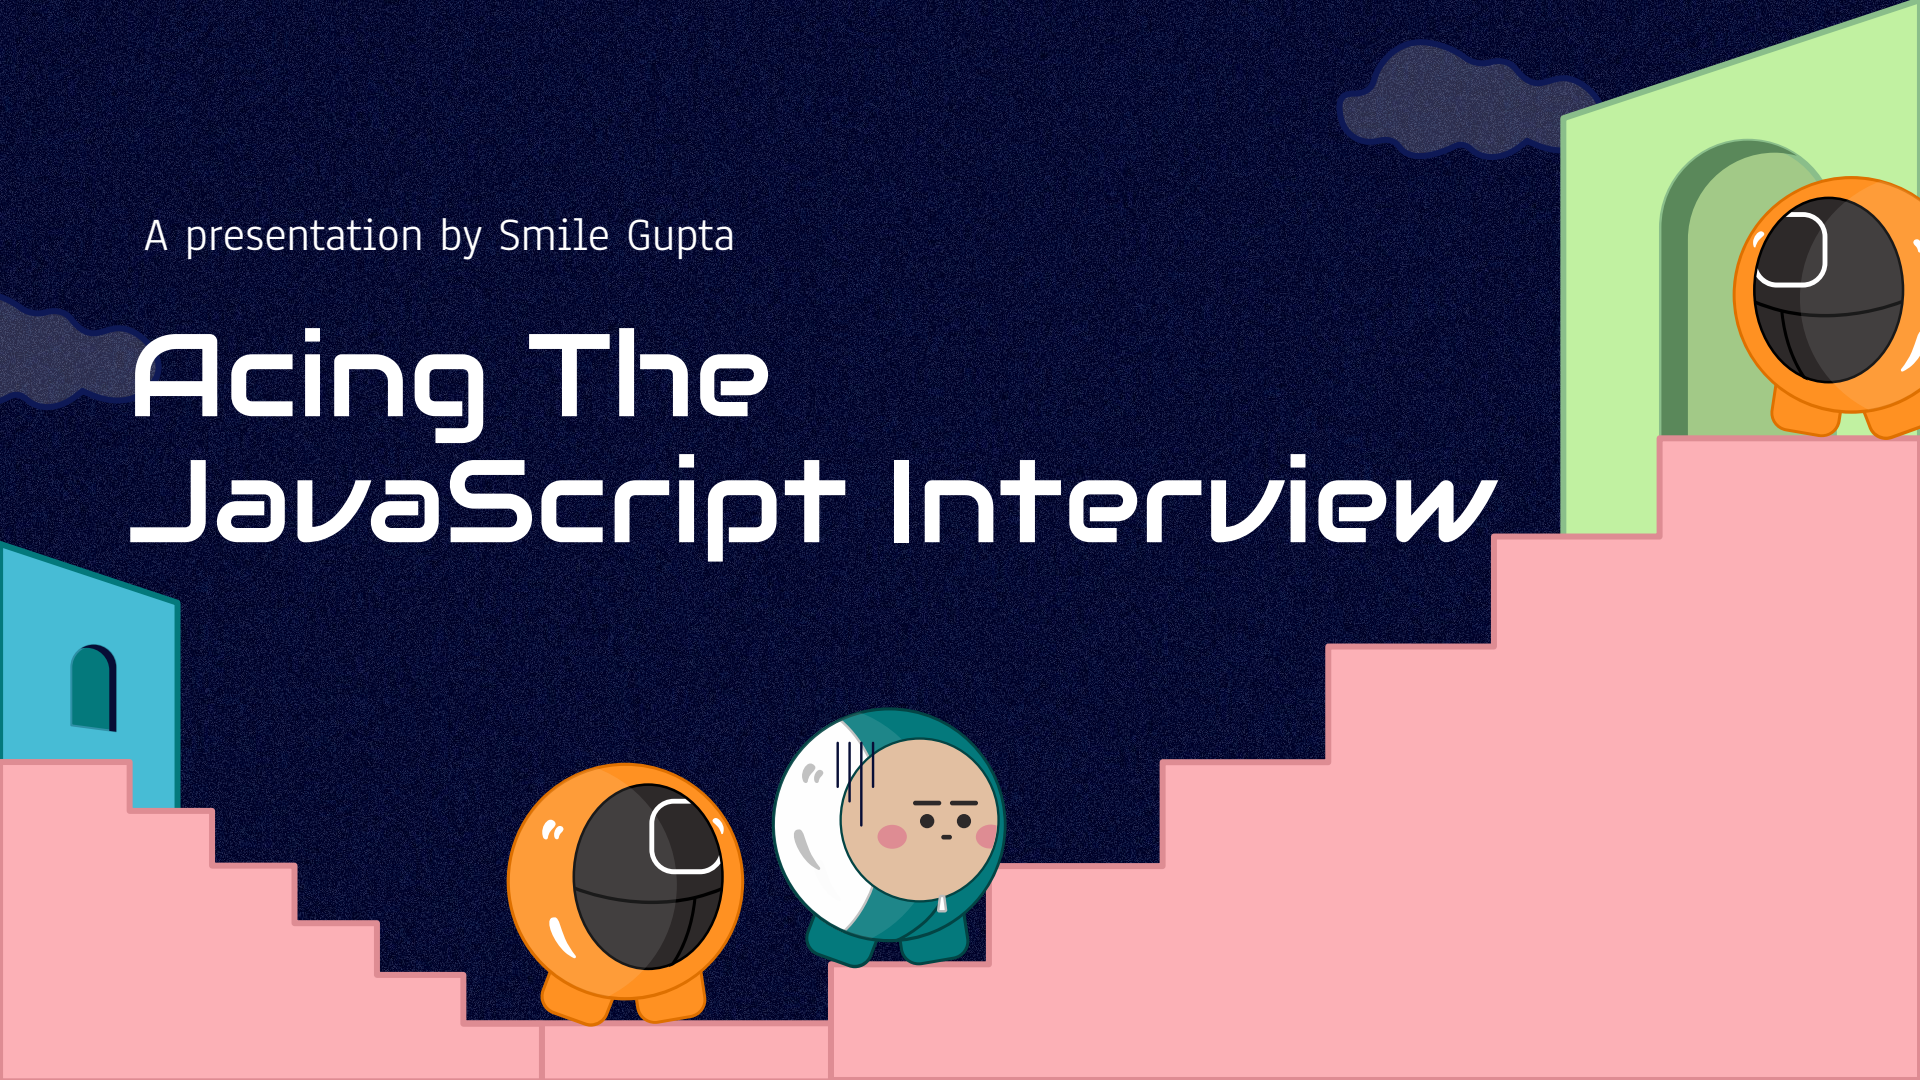
Acing The JavaScript Interview



The JS Interview

About Me!

Frontend Engineer, Razorpay

AWS Community Builder

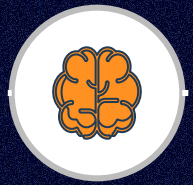
Tweets about JavaScript, ReactJS and Life

The Roadmap

01

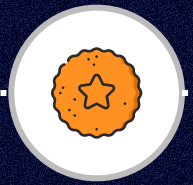
Mastering essentials

02



Thinking JS

03



Advanced Concepts

04

Interview Prep

01
Language
Essentials

Language Essentials

001

Variables & Datatypes

002

Functions

003

Conditional Statements

004

Loops

005

Arrays, Objects & Strings

02

Thinking JS

Thinking JS

001

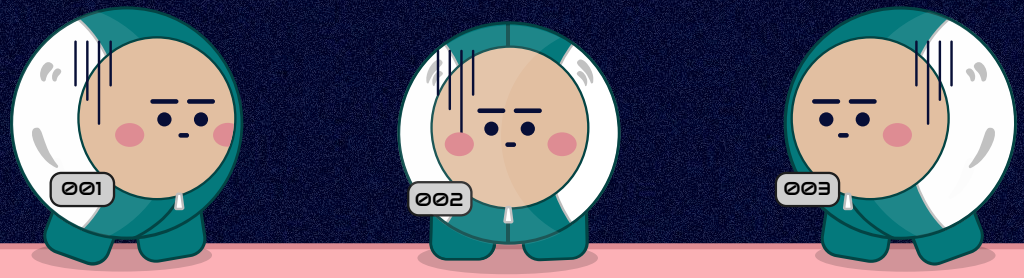
Solving Pattern Based Questions

Writing Polyfills for Array Methods

002

003

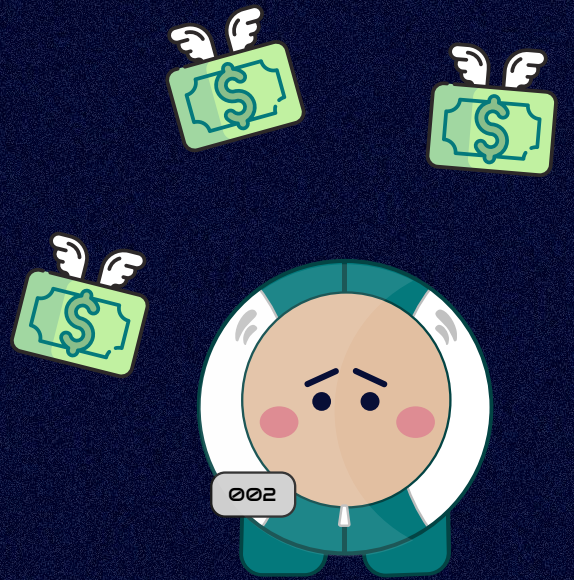
Making any application that involves usage of Regex



03 Advanced Concepts

Advanced JS Topics

- Promises
- Async Await
- Timers (setTimeout and setIntervals)
- Clouser
- “this” keyword
- Prototypes



04

Interview Prep
