

u picked me as ur healer

pwease be nice to me >.< ✨

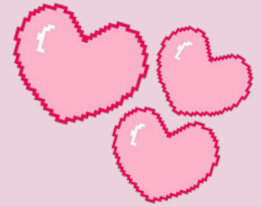

[a guide to live with me healing]

use defensives :3

watch timers and use defensives before they go off  
it will save your life!

lots of damage goes out and sometimes one shots  
it will help the entire group so i can heal everyone :D

# healthpots and stones o3o

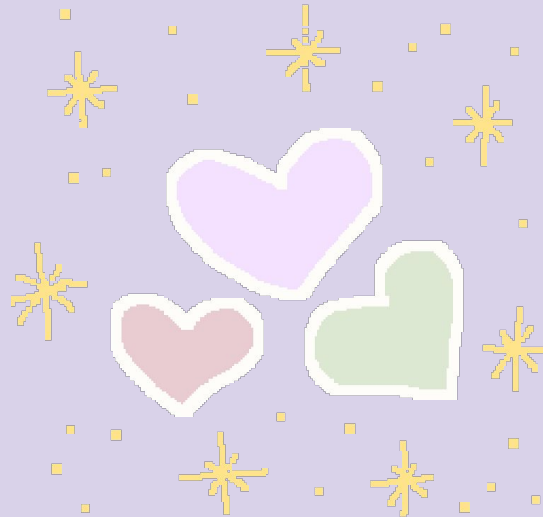

healthstones come from warlocks if we have one ask for a cookie!

you can buy healthpots from the auction house

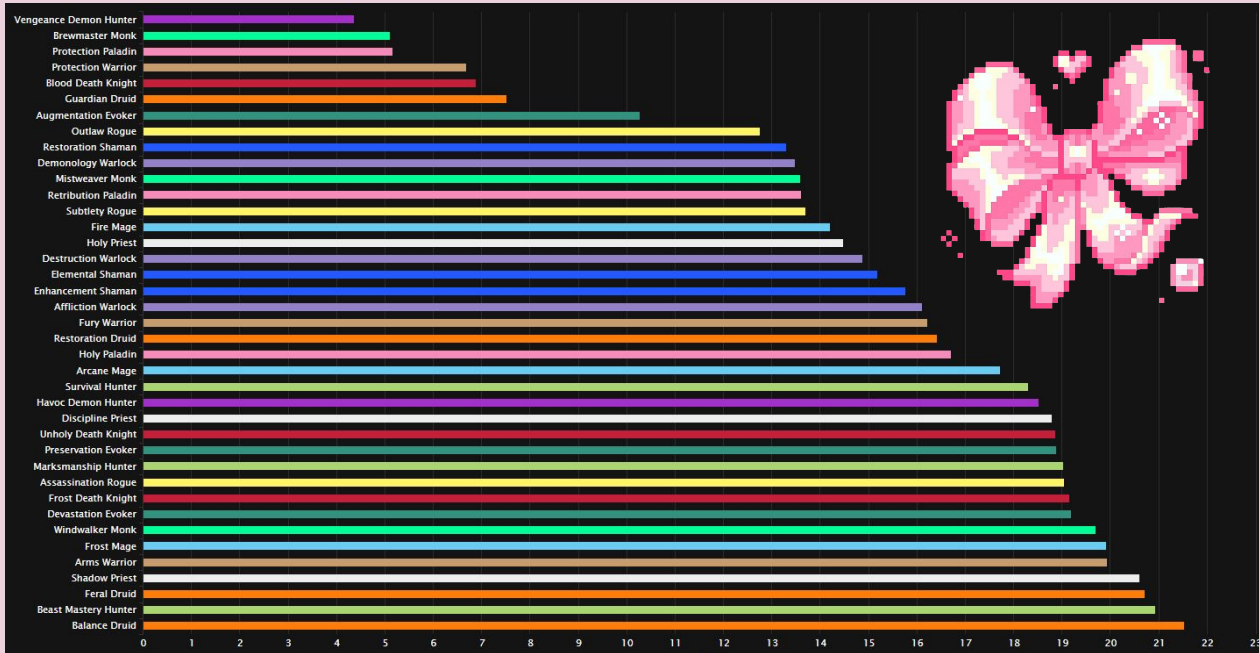

they heal you lots or can put a heal over time on you!

# specs that live the best xD

if u die it might be bcus ur class dies a lot!!1!

it might not even be my fault u die!!  
sometimes ur class just sucks :3

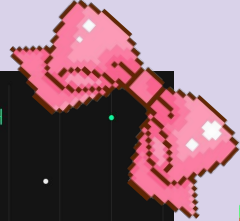

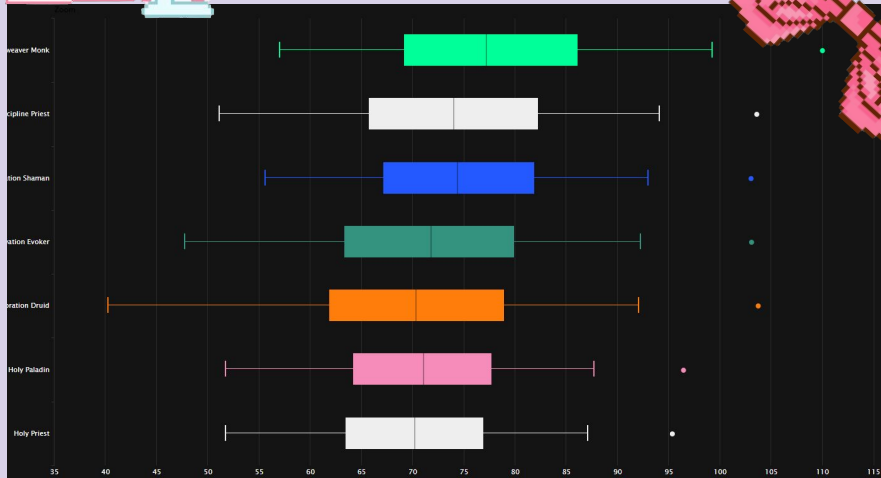

if im on one of these healers be careful! >.<

some healers still need love and tuning but can do their job!

i recommend learning what they do so u dont hurt my feelings

i might accidentally let u die :\*(

now lets time this key!!!!

we can time this xD !!

please dont call me bad or useless

less type more pew pew!!

all that matters is we have fun :3
