Premium Feature!

Bookings

Bookings Update Released:

Multiple Containers

Bookings Q2 Roadmap

Bookings Exceptions Notifications

Users will be able to get notified about bookings reminders and exceptions.

Agent Experience

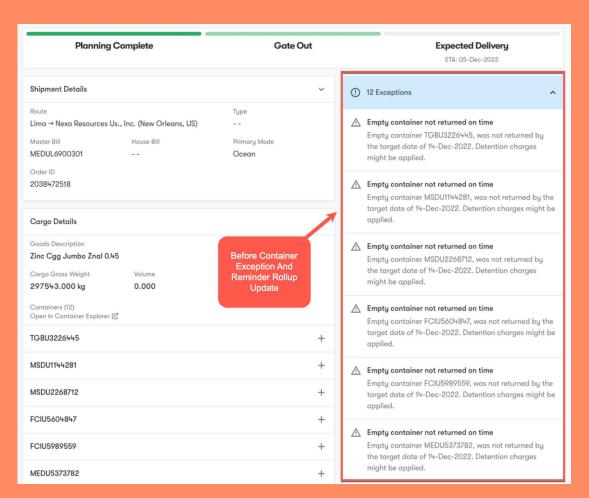

Agents work closely with freight forwarders to provide rates and sailing options to their customers, so we will create a new user type with access to Bookings.

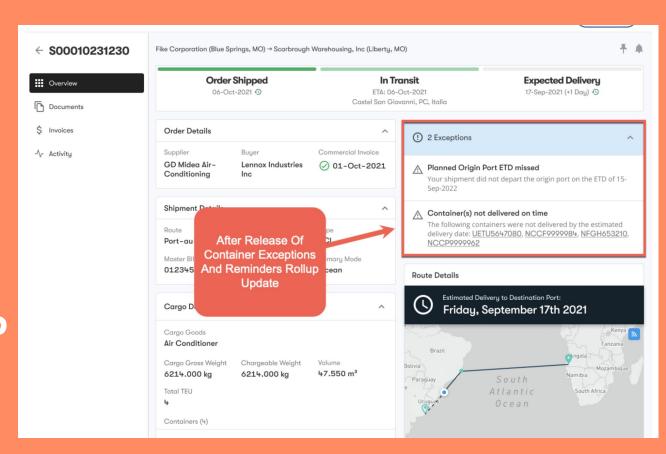

Linking Orders To Bookings

Enable your customers to submit booking requests on existing orders for those that provide order management services.

Container Exception & Reminder Rollup

Container Exception & Reminder Rollup

Which Container
Exceptions &
Reminders Are
Affected By This
Release?

Exceptions

Container on hold

Container not delivered on time

Full container not removed on time

Empty container not returned on time

Reminders

Reminder to pick up full container

Reminder to return empty container

More Features Coming Soon!

Saved Filters & Columns

You will be able to create a default "view" for your customers. No more need to log in as one your customers to tailor the experience for them!

Organizational Access Flexibility

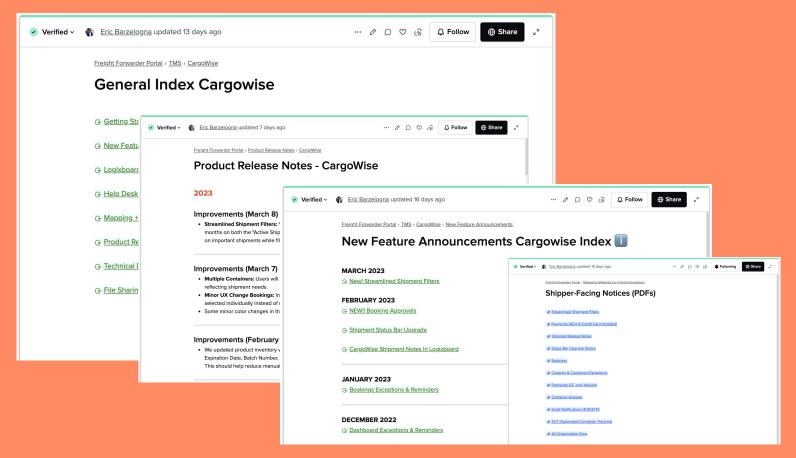

When inviting a new operator, you will have more flexibility by being able to Limit organizational access based on Branch Access.

Exceptions Categories

We will group exceptions by categories that users find helpful. These categories will help users quickly find the exceptions that matter to them.
