

Security in AI

Week 8 (skipped)

Progress

- configured one Nexus 5 as receiver for Wi-Fi packets
 - setup experiment with this phone + Wi-Fi router
 - Results:

Progress (Cont.)

- met up with mentors and received some sample CSI data
 - more guidance on the process for experimentation
 - received a fully functional Nexus 5 from Professor Chen
- currently looking to configure the other Nexus 5 as a transmitter
- participated in one of our mentor's experiments
 - very similar in setup + nature + experimentation
 - generated 4 sets of data
