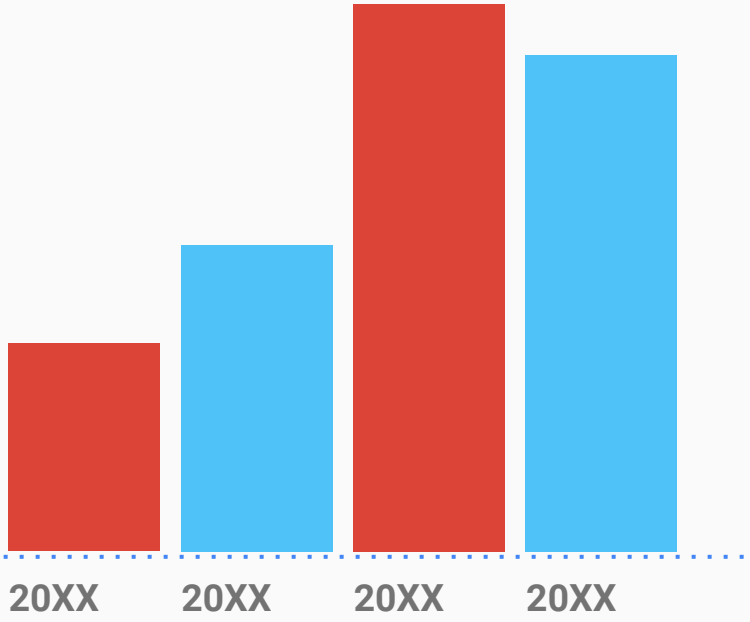
# **Mission Statement:** Make CPP Student Life Better

# The Problem

Students are too busy to check events that are going on right now on campus.

It is difficult to keep track of all of the events from different organizations.



# The solution

**Bronco Planner**:

A web service which automatically catalogs all events on campus.

# The Team

## Nanwarin Chantarutai

Project Manager and Full-Stack Developer

## Wie Shing Li

Full-Stack Developer

## Dina Lin

Full-Stack Developer

## Kushal Patal

Front-End Developer

# How it works

## Step 1

Login with your Google Account

## Step 2

Select the classes you are taking

## Step 3

Select the Clubs and Organizations you are interested in seeing.

# Target Market

All students and faculty at Cal Poly Pomona can use this tool initially.

Can be easily expanded to include all Colleges and Universities.

# Thank You
