Handwritten signature or name in the bottom right corner.

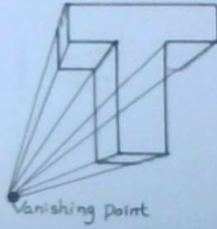

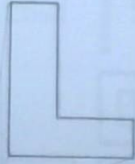

Big Idea

This cover shows my name colored in different ways and everything I like, including some geometric shapes.

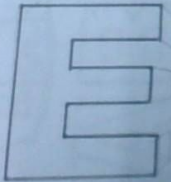

Also, it shows many styles and textures in colored pencils.

Letters in Perspective - one point perspective

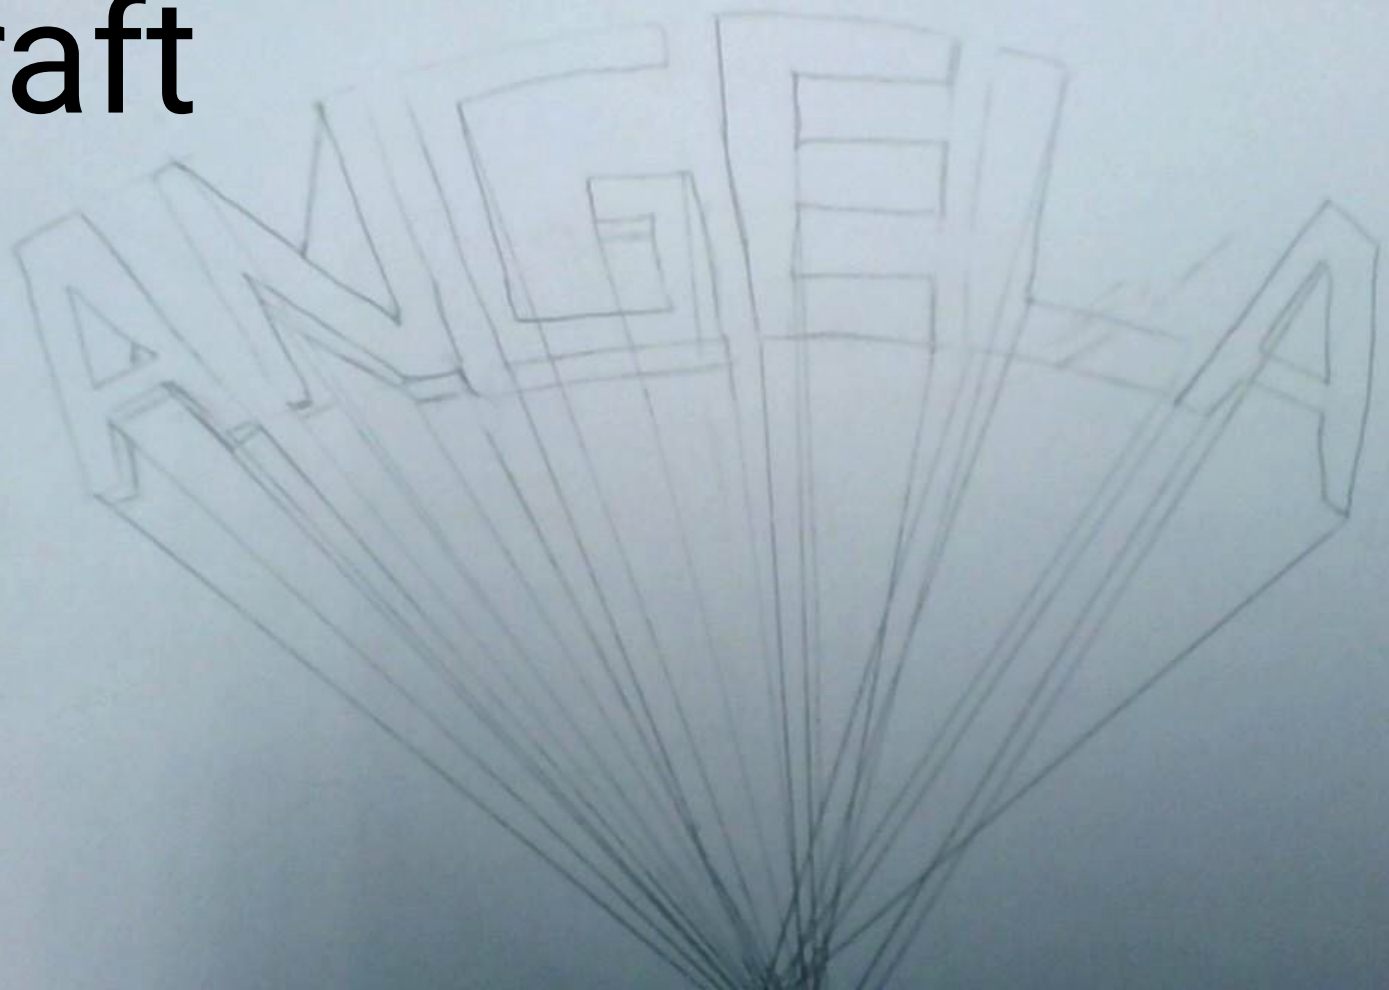

Vanishing point

One point perspective

Draft

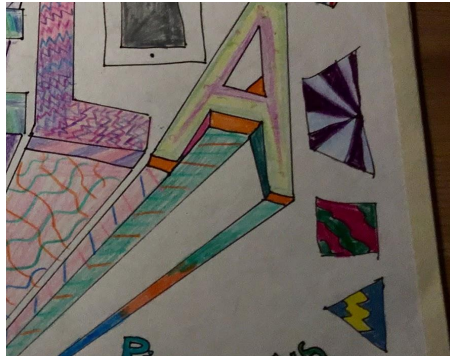

Critique Based on The Elements of Art

I think my lines varied in variety and were well thought out.

Some of my shapes were 2-D and others were 3-D. You could also tell what they were.

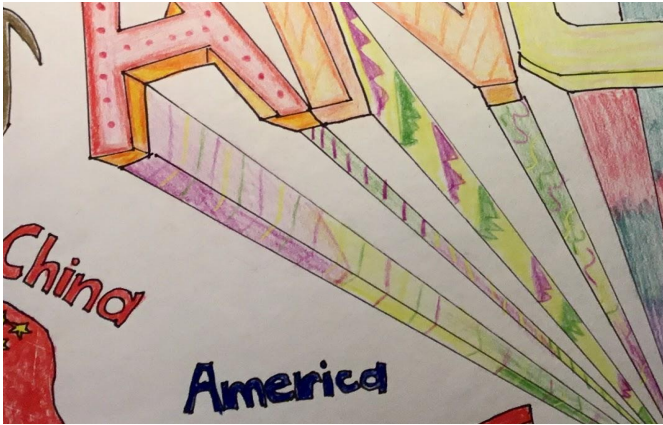

I think my texture was different every time I colored something in.

Critique Based on Colored Pencil Art Technique

I think my pressure was very obvious and I did a lot of it.

I had a variety of different strokes, like hatching, stripes, and scumbling.

I had a lot of burnishing in my words and drawings in the background, like China, America, etc.
