# Star Rating

Tagline / Subtitle

Problem

Rating

The stars and their trigger area is so small and tight that it makes selection hard. Specially troublesome in mobile.

Interaction

The interaction translates poorly into mobile devices due to the lack of hove instances, making it look and feel like a glitch.

Current State

⚠️ Experience Issues

- There's no focus indicator or any hint that the selection is active

- Keyboard controls are not following any standards

⚠️ Coding Problems

- The labels of each star are empty, it should contain the actual rating text (1 star, 2 stars, etec)

👁 🎨 ✋

✅ Must haves

- Hover state + focus indicator

- Since we're selecting a range
  the hover should give a hint of
  the rating we're about to
  select.
