

CryptoRex

Decentralized Exchange

This document is not investment advice. We don't advise anyone to invest if he/she doesn't understand the content of this document.

CryptoRex is the most powerful and decentralized exchange with own smart contract and lower fees, every transaction is mined fast with low amount of wei. Every new token is listed on our exchange for helping small communities to grow and bring more investors.

Our exchange include implementation of web3.js and makes our site compatible with Metamask.

Tokens are not stored on our website or on cold wallets, all tokens are stored on smart contract so nobody can access your tokens without your private key of your ethereum wallet.

You decide how many gas fee you give for your transactions, CryptoRex don't take any gas fees or commissions for self from traders, small fees are going to miners . Our exchange is here to help people to exchange tokens anonymously without accounts or other verifications.

Witch is the purpose of our ICO Sale?

CryptoRex want to take off all fees from exchanges by holding our tokens in wallet, that will make all trades cost 0 and voting using our tokens for listing new tokens on CryptoRex App.

We will release new system for voting your favorite token to be listed on top of exchange for better advertising and bring more trades for most voted token on that day !

It's worth to invest in **CryptoRex** ?
