Benefits of the Complete Reseller Package

- Profitability
- Manage your clients effectively
- Accept online payments from your clients
- Total control over accounts owned by clients
- Better Customer support to clients

Tools

- **Hosting reseller account**- You may use this to resell cPanel hosting account to your clients
- **Domain reseller account**- You can sell domain name at a discounted rate to your clients
- **Payment gateway**- We will provide you with payment gateway(s) which you may use to accept payments online from your clients
- **Billing/Ticketing CRM solution**- This solution will tie all the three products above into a massive CRM tool that will allow clients order for hosting and domain from your site and then pay for these using your payment gateway. The orders are then activated automatically. You can also manage these orders manually and have a ticketing system where your clients can reach out to you.

Case Scenario

Hosting Package

The Bronze hosting package comes with 25GB disk space and 250GB bandwidth. There is full control of how to sell and allot the capacity of the hosting package that comes with this reseller program.

For example, if 250MB is sold at N2,000

- 250MB count in the Bronze hosting package - 100
- Desired resale price - N2,000
- N2,000 multiplied by 100 = N200,000

By the time the deposit for the reseller hosting is exhausted, the sale of N200,000 would have been made. A profit from the N25,000 hosting deposit will be N175,000; allowing you break even and make profit despite the first year and subsequent year costs.

The ticketing & billing system also ensures you stay organized and manage your clients efficiently even as you grow.
