

Export Dashboard

| Why?

Problem

Currently there is no way to export the dashboard of the CX Reputation. With this feature, users will be able to download the CX Reputation dashboard in various format based on the use case.

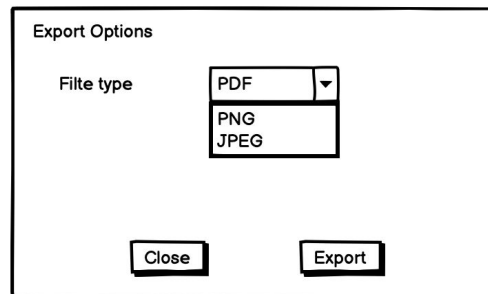

User Story

Joseph is a reputation manager at a leading brand and he wants to export the dashboard to email it to the stakeholders as a part of brand reputation management strategy

Export Dashboard

- There will be one more icon added in the filter menu at the end besides the reset button for exporting dashboard
- Clicking on the export icon, there will be a dropdown saying “Export Dashboard”
- Clicking on the Export Dashboard, a pop up will appear with Export options
- The Export options provides the file type of the exported file.
- The file type supported are PDF, PNG, JPEG
- User can select any one option and click on the export button.
- Clicking on the export button will close the pop up and download the dashboard in the selected format
- Clicking on the close button, the pop up closes and download is cancelled.
