Preparation for working abroad for engineers

by Nobu

My profile

●twitter　@nobubump0

●My Career

・I worked as a back office staff for 3 years half.

・I studied abroad twice in the Philippines(Baguio, Cebu).

・I have been working as a software engineer for 5 years half. Rails, React, Node.js.

・I'm gonna go to Canada🇨🇦 this May to find a local job!

Outline

- Check the visa requirements.

- Search local jobs in advance.

- Practice your English.

My plan

I got 3-year Co-op visa to stay in Vancouver, Canada.

I used an agent service to get a visa.

approved

1 year
student visa
college

2 years
working visa

Expenses for preparation

	expense
tuition and enrollment fee	¥ 2,998,547
home stay(40 nights)	¥ 195,874
air plane ticket(one way)	¥ 65,750
travel insurance(90 days)	¥ 19,188
Duolingo English test	¥ 16,474
total	**¥ 3,295,833**

College entrance requirements

1. Pay money

2. English test
- IELTS 5.5
- Duolingo 95
- TOEIC(L/R) 605 (S/W) 310

I chose Duolingo English test.

Job search

You can search salaries and the number of jobs on these sites.

- Glassdoor
https://www.glassdoor.com/Salaries/canada-react-developer-salary-SRCH_IL.0,6_IN3_KO7,22.htm

- Indeed
https://ca.indeed.com/jobs?q=react&l=Canada&vjk=53d4cc4b9bf6c343

How Did I study English

・Join the meetup events.
https://www.meetup.com/

・Take online English lessons every day.(850 hours)
Dmm eikaiwa, Native camp

・Work in a global team of a Japanese company.
