
COMING OUT

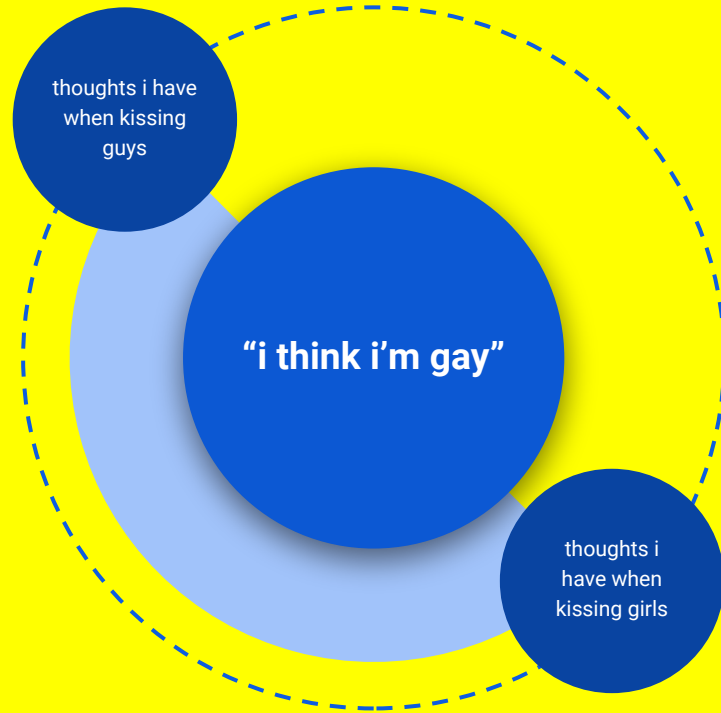

a presentation by amelia som de cerff

GAY.

- may be surprising
- shouldn't be *that* surprising
- not bisexual, just lesbian until otherwise stated

EVIDENCE

EARLY SIGNS

**ignoring the fact
that i had crushes
on girls because i
went to victory**

SEEMS KINDA GAY NGL.

playing softball

THIS IS A STEREOTYPE BUT
I STILL THINK ITS KINDA
GAY NGL

**being physically uncomfortable
when men express any feelings of
affection to the point that i would
rather not speak to them again**

APPARENTLY THIS IS NOT A HETEROSEXUAL
EXPERIENCE

TIMELINE

- simply ignored all of my feelings until i went to college because i had more important things to worry about
 - thought i would accidentally come out to you when i got my wisdom teeth taken out and i still don't remember if i said anything about it
 - almost all of my friends in college have been gay
 - no, i am not dating any of them
 - important because queer people rely on pack tactics
-

URGENCY

- i'm out on tiktok and it's weird that thousands of strangers know something that you don't
 - feels like you should know and that you probably wouldn't be ecstatic about it but also ultimately would let me do my thing
 - when victoria made us watch curb your enthusiasm instead of schitt's creek it felt like homophobia against me, specifically
-

TAKEAWAYS

- still will provide you with grandchildren
 - don't care who in the family does or does not know
 - you do actually become cooler by association
