Numbers in table are after filling all available seats

Solar Eclipse

The eclipse will be visible in Charlotte at approximately 1:54 p.m. on April 8.

At its peak, 83% of the sun will be covered, which will happen just before 3:12 p.m

Difficult to ensure safety at dismissal time

First day back from spring break so early dismissal would be inconvenient for families

Propose an extension of spring break to allow families to watch this event together - we have a reserved weather day built in that can be used
