

Verifiable Credentials Specification Directory

VC-EDU Task Force Discussion

VC Spec Directory

view: <https://w3c.github.io/vc-specs-dir/>

contribute: <https://github.com/w3c/vc-specs-dir>

What is it?

An *extension point* mechanism for Verifiable Credentials.

- Specs for **proof methods**
- Specs for **existing** VC Data Model **properties** (e.g. `credentialStatus`, `evidence`, etc)
- Proposals for **new** VC DM **properties**

Upcoming (possibly) specifications preview

A sneak preview of some possible upcoming additions to the VC Spec Dir

- **VC render hint** (new top level VC property)
 - Based on RWoT 11 [Rendering VCs paper](#)
- **Composable Credentials** (using digest hashlink mechanism)
 - Based on RWoT 11 [Composable Credentials paper](#)
- **Verifiable Issuers/Verifiers List spec**
 - Based on the [RWoT 11 Verifiable Issuers paper](#)
 - Spec incubating at CCG: <https://w3c-ccg.github.io/verifiable-issuers-verifiers/>
