

KWL: Know, Wonder, Learn Graphic Organizer

All Subjects, Grades 3-12

Assignment Objectives

- Students reflect and engage with a concept before, during, and after a learning activity.
- Students work with a Paper Live Help tutor to get feedback on their ability to explain what they learned.

Teacher Instructions

- Before teaching a concept, give students the worksheet and the topic or concept you will be teaching them about. Ask them to complete “What do I know?” with any prior knowledge they have about the topic.
- As you complete the learning activity (examples include a reading, video, or lecture) students write questions they have in “What do I Wonder”
- When the activity is done, students summarize what they learned in the “What did I learn” box.
- Step 2 of the worksheet has students log onto Paper to get feedback from a tutor.

Ideas for Use

- Pair with a reading, video, lecture, or lesson to help students reflect throughout the learning process.
- Use this as part of an intro activity at the start of a lesson or unit.
- Extend this activity by having students write a paragraph or essay based on the graphic organizer.

KWL Chart: Know, Wonder, Learn

Step 1: When instructed by your teacher, add to the Know, Wonder, Learn chart below. Complete “What do I know?” before exploring the concept or topic. Complete “What do I wonder?” before and during the learning activity. Complete “What did I learn?” when you are finished by creating a summary.

What do I know?

What do I wonder?

What did I learn?

Step 2: When the chart above is done, log on to Paper to chat with a tutor. If you have any questions under “What do I wonder?” share them with the tutor for additional help. When done asking questions, share what you wrote under “What did I learn?” and take notes on any feedback you receive.

Take Notes on Feedback from the Paper Tutor below, revise your work above if needed.

Blank space for taking notes on feedback from the Paper Tutor.
