

**Take Photos of Your
Work Like a Pro!**

HELPFUL VIDEOS Middle & Secondary

This art teacher suggests you take the photo into a photo editor--only do that if you are comfortable and know how to do it. It's not necessary however.

QUICK TIPS

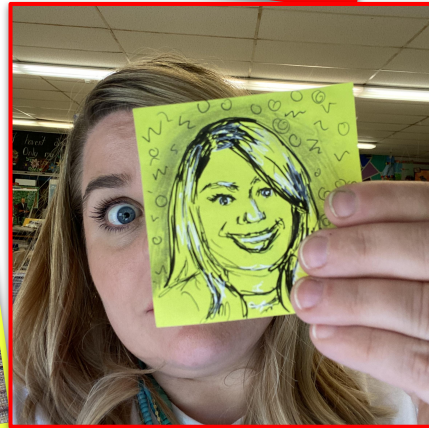

Do and Don'ts

Do

- Take the photo of your work from above.
- Make sure it's in focus.
- Use the sun as your light source.

Don't

- No hands at all.
- Nothing should be covering work.
- You shouldn't be in the photo.

Don't

- Again, take the photo from above, not on a skew/perspective.

Don't

- Don't make your art too small, fill the frame!
