ABOUT WATTUM HOSTING

- WATTUM is one the leading USA providers of hosting of mining equipment and maintenance services.
- Arseniy Grusha CEO of Wattum
- 5 Mining Facilities in US and Canada under Management (630+PH)
- 1000+ Mining Pool and Firmware Customers
- Office in New York City, US and Minsk, Belarus

Lowest prices for electricity in the USA

Comfortable climate for mining facilities, that allows to work steadily regardless to the season

Friendly and supportive legislation

Located in Upstate New York, WATTUM's hosting facility meets applicable regulations and guarantees high uptime through strict maintenance and monitoring protocols combined with a professional team of both cryptocurrency industry experts and power-plant management veterans with decades of combined experience.

With Institutional Banking, strategic industry partnerships, enterprise level operational excellence, and 150 acres of space to expand from our power plant capable of generating over 100 MW of clean energy an hour, Wattum is positioned to allow clients to scale their operation at a single site.

EQUIPMENT MONITORING 24/7

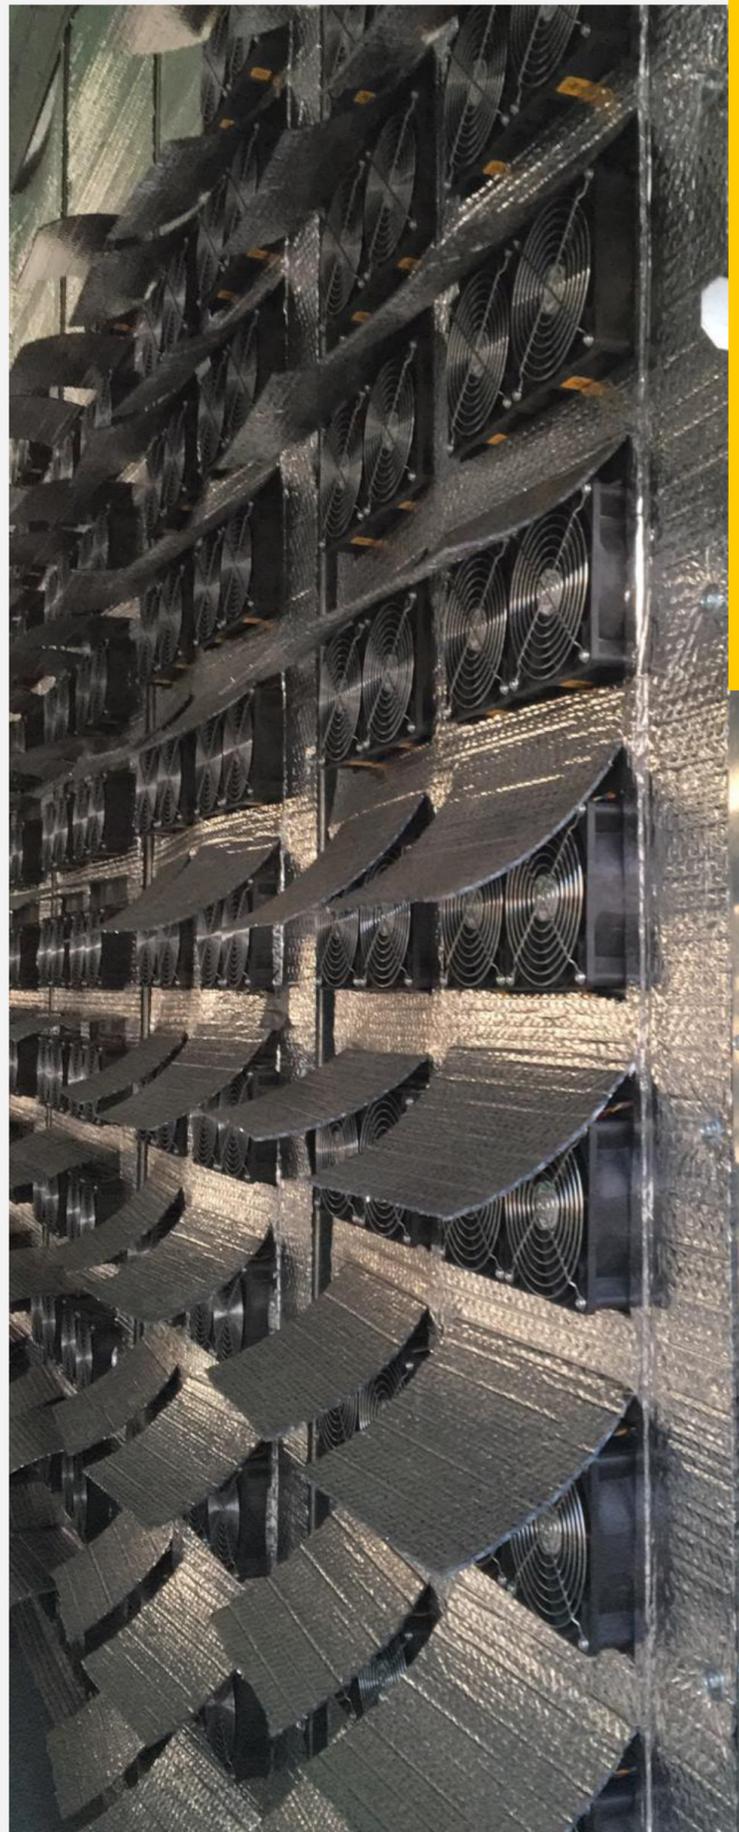

Monitoring and support provided by onsite technicians with 24/7 customer support.

REGULAR DIAGNOSTICS

Our specialists carry out routine maintenance of clients machines, keeping them clean and monitoring mining equipment control of current conductors using a thermal imaging device as well as routine visual inspections by certified technicians. These proactive measures ensure our clients will get the maximum lifetime out of their mining equipment.

HIGH UPTIME AND RESERVATIONS

Our datacenter has two independent fiber optic uplinks along with a third layer of wireless reserves which eliminates downtime due to lack of communication.

Uninterrupted network operation at least 99.9%

Uninterrupted power supply at least 99%

The average equipment uptime is 99.93%

ON-SITE WATTUM EQUIPMENT REPAIR CENTER

We keep spare parts in stock allowing for quick miner repairs in order to keep our clients operation running as efficiently as possible.
