Uses

Pros and Cons

Overview

What is the internet?

“A digital library of infinite knowledge.” -Jazmine Kellmel

“A vast network that connects computers all over the world.” -Britannica

A global network or connection of millions of computers, linking and exchanging data, news, opinions, entertainment, and more

Target audience

Everyone

Uses

- ❖ Working/school from home
 - ❖ Communication
 - ❖ Finances
 - ❖ Keeping better track of information
 - ❖ Gaming
 - ❖ Reading
- 

Terms of Service

01

A set of legal terms for each website, platform, and service about what they expect from their users

02

Optional if users follow the Terms

Cons

- ❖ Infinite “knowledge” at your fingers
 - The knowledge may not be truth
- ❖ Websites and databases with algorithms to do things for you
 - Relying on technology for everything
- ❖ Can communicate with anyone around the world
- ❖ Potential decline in mental and physical health, confidence, motivation
 - More likely in women or people 13-23
- ❖ Potential addiction to the internet
- ❖ Potential for private information being leaked
- ❖ Potential servers being used for malicious intent
- ❖ Easy access to websites not for those under 18 or the general public
- ❖ Somewhat free speech online
 - Restrictions on what is said
 - could lead to potentially dangerous situations
- ❖ Restrictions on certain sites
- ❖ Limited access, requirements to pay for sites
 - Can't access *everything* in other countries

Join us in the future.
