

Kingdoms

Animals

Plants

Fungi

Bacteria

Protists

5TH GRADE- UNIT 1-C.B 16-17

Living things classify in **5 KINGDOMS:**

- ANIMALS
- PLANTS
- FUNGI
- PROTOCTISTS
- BACTERIA

CLASIFICACIÓN DE LOS SERES VIVOS

<https://www.youtube.com/watch?v=6NIR57uPk3I>

ANIMAL KINGDOM

- They are multicellular.
- They take in food.
- Most animals can move around.
- They are divided into:
 - vertebrates
 - invertebrates.

THE ANIMAL KINGDOM : CHARACTERISTICS

<https://www.youtube.com/watch?v=ROgsunixPFo>

LOS ANIMALES (La Eduteca) <https://www.youtube.com/watch?v=U0Xd4ncssfA>

- They are multicellular.
- They make their own food.
- They cannot move around.
- There are two types:

PLANT KINGDOM

SEED PLANTS

and

SEEDLESS PLANTS

SEED AND SEEDLESS PLANTS

THIS FUNGI
LOOKS LIKE A
FUN GUY

THE PROTOCTISTS KINGDOM

(Protozoa & Algae)

PROTOZOA

- They are unicellular (microscopic).
- They are aquatic.
- They take in food.

ALGAE

- They can be multicellular or unicellular.
- They are aquatic.
- They make their own food.

REINO PROTISTA
