

INTRODUCING WREN ACORN

CLASSROOM
CHAMPIONS[®]
how better gets better and better

Wren is a short track speed skater on the Canada NextGen Team. She is originally from Yellowknife, NT and is now living in Montreal as a part-time student and full-time athlete. Most recently, she competed in the 2023 FISU World University Games as well as the 2023 Canada Cup, finishing 10th overall, her highest national-ranked finish ever.

As a development team athlete, Wren is still learning how she can realize her full potential as an athlete, a student, and a person. She looks forward to sharing some of the insights she has gained so far on this journey with the students she will mentor. Wren hopes she can offer inspiration and advice to any students looking to be high performance athletes, and also applicable life lessons to the ones who aren't. She is honored and excited to be a part of the Classroom Champions community and can't wait to meet her mentees!

Performance Stats:

Canada NextGen Speed Skating Team

2023 FISU World University Games - 4th & 10th

2022 Canada Cup Final - 6th

2021 National Championships - 13th

FUN FACT!

I have two husky rescue dogs, my favourite physical activity outside of training is snowshoeing at my cabin, and growing up I was coached by both my parents!
