

## Eko 16.20 - 16.21

### Enhancement

- **All platform - AI Assistant development**

Our new function on Chat that provides you an access to Chat GPT with no special uses based on business needs but for individuals to get access to AI. The assistant aims to support your work and increase your efficiency with data that is not being shared with the large language model. Your data is protected by Microsoft on the private cloud.

For the roadmap, functionality and the details of the AI Assistant development, please contact your account manager, customer success or create a ticket inquiry to our support team.
