Section 1: Project Statement

For this project I have aimed to design for disaster. The Modular Nap-Pack is an entirely crocheted camo blanket that can shift and morph into a safe haven of survival. Designed to assimilate into everyday life it can be utilized at any moment when the threat of evacuation happens. The Modular Nap-Pack unfolds into a warm crochet blanket for everyday coziness as well as a backpack for quick evacuation and storing essentials. If there is nowhere to sleep for the night the Nap-Pack can fold out into a warm and resilient sleeping bag with hidden pockets to protect valuables. The adjustable straps can be removed and utilized as rope for climbing, fastening, hunting, and attaching.

Section 3: Process Shots

Front
 detachable pocket
 zipper
 lined w/ thermal fleece
 button loop
 button hole
 button

Back
 detachable loop
 detachable and adjustable straps
 button loop

Backpack
 folded over
 pocket
 button loop

Legend

- - buttons
- zipper
- - pocket
- || - adjustable strap/buttonhole
- ⊞ - thermal fleece
- - button loop
- ⊝ - rolled up pillow

Notes:

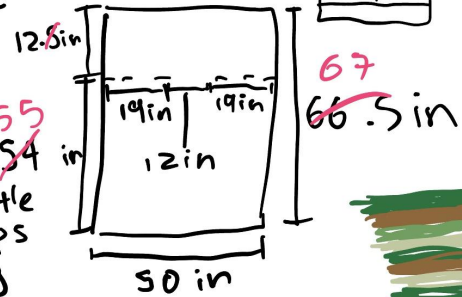

- backpack used for clothing
- clothing doubles as padding
- maybe could add extra bag for extra things in backpack
- connect bag to the sleeping bag
- find place for extra bag to hide
- flip inside out
- waterproof material
- color code for ease of folding
- how to make flip??
- waterproof yarn?
 - nylon* - resistant to oil
 - polyester
 - taffeta - thermoplastic

Crochet Nap-Pack

Essentials

- socks
- phone
- shirt
- leggings 55
- wallet 54 in
- water bottle
- use straps as holding

204 chains

191

225 - 34

21 skeins needed

1 skein = 3.5 in

3 skein = 11.5 in

+ jumbo roll = 19 in

+ jumbo roll = 25.5 in

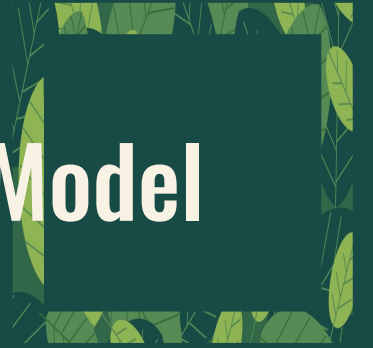

Here's a belarusian pattern

started sept. 24 + jumbo roll = 33 in
 L 7.5 in
 11 rolls so far + jumbo roll = 40 in
~~17~~ 18 L 7 in
 482 yards + jumbo roll = 46.5 in
 L 6.5 in
 236 yards + jumbo roll = 51/53.5 in
 and gramy square
 + jumbo roll = 55 in
 and straps
 708 yards
 + 3,374 yards = 4,323
 + 241 yards = 4,323 yards
