VOCÊ JÁ OUVIU FALAR DE CONECTORES?

COORDINATING CONJUNCTIONS

for and nor but or yet so

F A N B O Y S

VOCÊ JÁ OUVIU FALAR DE CONECTORES?

Conjunção	Indicação / Função
for = POIS	explicação
and = E	adição
nor = NEM	liga duas alternativas negativas
but = MAS	oposição, contraste
or = OU	alternância
yet = TODAVIA	oposição, ressalva
so = ENTÃO	mostra que a segunda ideia é o resultado da primeira

TEXTO

Will Smith apologizes to Chris Rock after Oscars slap (31st March, 2022)

Actor Will Smith has apologized to comedian Chris Rock for hitting him at the Academy Awards show on Sunday. Mr Smith shocked the audience when he walked onto the stage and slapped Mr Rock around the face. Rock was presenting the Oscars ceremony. He made a "joke" about Smith's wife, Jada Pinkett Smith. The joke was about Ms Smith appearing in an imaginary movie in which the star has no hair. Ms Smith suffers from a hair loss condition called alopecia. This causes many women a lot of stress and a lack of confidence. In Mr Smith's apology, he said: "Jokes at my expense are a part of the job, but a joke about Jada's medical condition was too much for me to bear, and I reacted emotionally."

Forty minutes after the on-stage slapping incident, Will Smith won the Oscar for Best Actor for his role in the movie "King Richard". In the movie, he played the part of the father of tennis superstars Serena and Venus Williams. In his acceptance speech, Mr Smith apologized to the Academy, the attendees at the show and everyone watching around the world, but not to Mr Rock. That apology came a day later. Smith said: "I would like to publicly apologize to you, Chris. I was out of line and I was wrong. I am embarrassed and my actions were not [a sign of] the man I want to be. There is no place for violence in a world of love and kindness." The Academy said it is "investigating" the incident.

TEXTO

Scientists warn of more extreme hot weather (9th July, 2021)

Scientists warn the world will have more extreme heat. Experts from the EU's Earth Observation Programme analysed temperatures from satellites, weather stations and other databases. Their figures indicated a high likelihood of more extreme temperatures. Last month was the second warmest June on record for Europe. There were heatwaves over western North America. Many high temperature records were broken in Canada and the USA.

UK meteorologists said we have to get used to more record high temperatures. They said many regions are experiencing heatwaves. They added that records are being broken by larger margins. They reported that Canada's recent "heat dome" weather event was an example "not just of extreme temperatures, but of extraordinarily extreme temperatures." The scientists warned of a warmer world with more droughts and heat-related deaths.
