

# Auto HODL

ETH Denver 2024

Your on-chain piggy bank

Problem: If you had saved a fraction of the ETH you spent 5 years ago, you'd be rich

---

# Auto HODL: Save tokens every time you interact with the blockchain

---

## Savings Contract

- Intercepts all transactions you send
- Save a little at a time
- Lockup savings as long as you want
- “Acorns for crypto”

## Target Contract

- Contracts you are already using
- Uniswap, ERC20, etc

# Demo: ~~Number~~ Saving go up

# Our journey: Saving you more has just begun

- Metamask snap
- 4337 AA
- Dynamic function selectors
- Save a percentage of transaction value
- Anti MEV RPC
- Gas optimization
- Withdraw to charity
- Available on all wallets
