

INTRODUCING ERICA VOSS

CLASSROOM
CHAMPIONS[®]
how better gets better and better

Erica Voss is a bobsledder on Team Canada, most recently winning silver at the 2022 Push World Championships in Lake Placid. Prior to that, she attended the Tokyo 2020 Olympics as an alternate. She grew up in Toronto playing every sport she could; soccer and track in the summers, ringette in the winter, and any other sport she could play during the school year. In school, her favourite subjects were math and art, and at the University of Toronto, she combined those interests and studied engineering.

After 18 years playing ringette, Erica made the switch to a new winter sport in 2020 - bobsleigh. In her three seasons thus far, she has pushed herself to train harder than ever before, met some amazing people, and got the opportunity to travel the world. She even won a World Cup Bronze medal after just a year in the sport and made the Olympic team as an alternate. Erica is excited to share all the lessons she has learned with the wonderful students she'll meet through Classroom Champions!

Performance Stats:

Alternate for the 2022 Olympic Games

2022 Push World Champions Silver Medalist

2021 Europe Cup Bronze Medalist

2x World Championships Competitor

FUN FACT!

I played ringette for Team Canada before switching to bobsleigh, I love to draw and paint and I eat chocolate in some form every single day!!
