

Design a Getaway Car for Goldilocks

STEM
Challenge

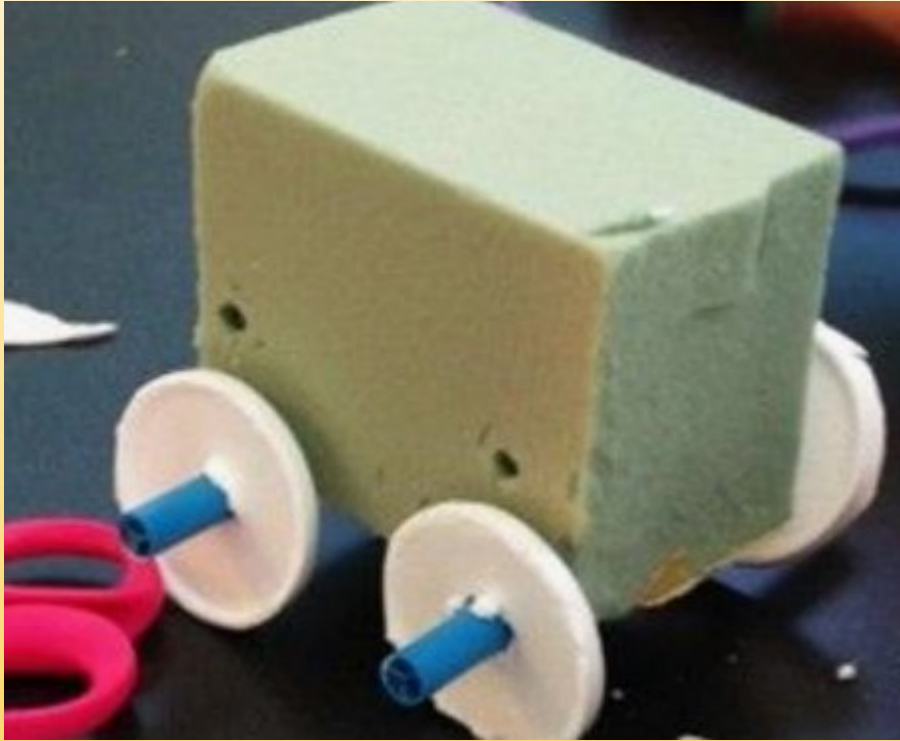

Goldilocks needs your help!

Can you build a getaway car so she can escape the angry bears?

Check out ideas on the next 3 slides.

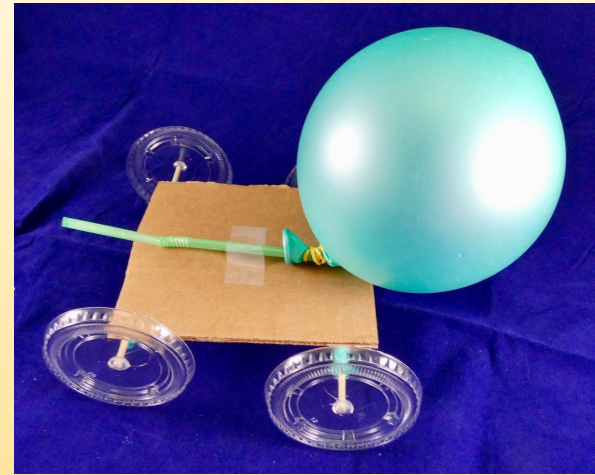

Straws make good axles!

Straws with kitchen skewers inside them make axles that can move!

If your family wants to help,
try a balloon-powered car!

Look around your house
for supplies for your car.

Here are a few ideas:

Tissue boxes

Plastic lids

Straws

Tin foil

Cardboard Tubes

Legos or other building
toys.

Use this page to draw your idea for a car

Share your car on Seesaw!

Tell us about one problem you faced when making your car.

How did you solve this problem?
