

# Purple Power Rangers

By: Ambar, Andrei, Elizabeth & Mihika

**We thought that  
you should  
tackle life with  
these four tips:**

Preserving innocence- Ambar

Determination- Elizabeth

Kindness- Mihika

Facing your Fears- Andrei

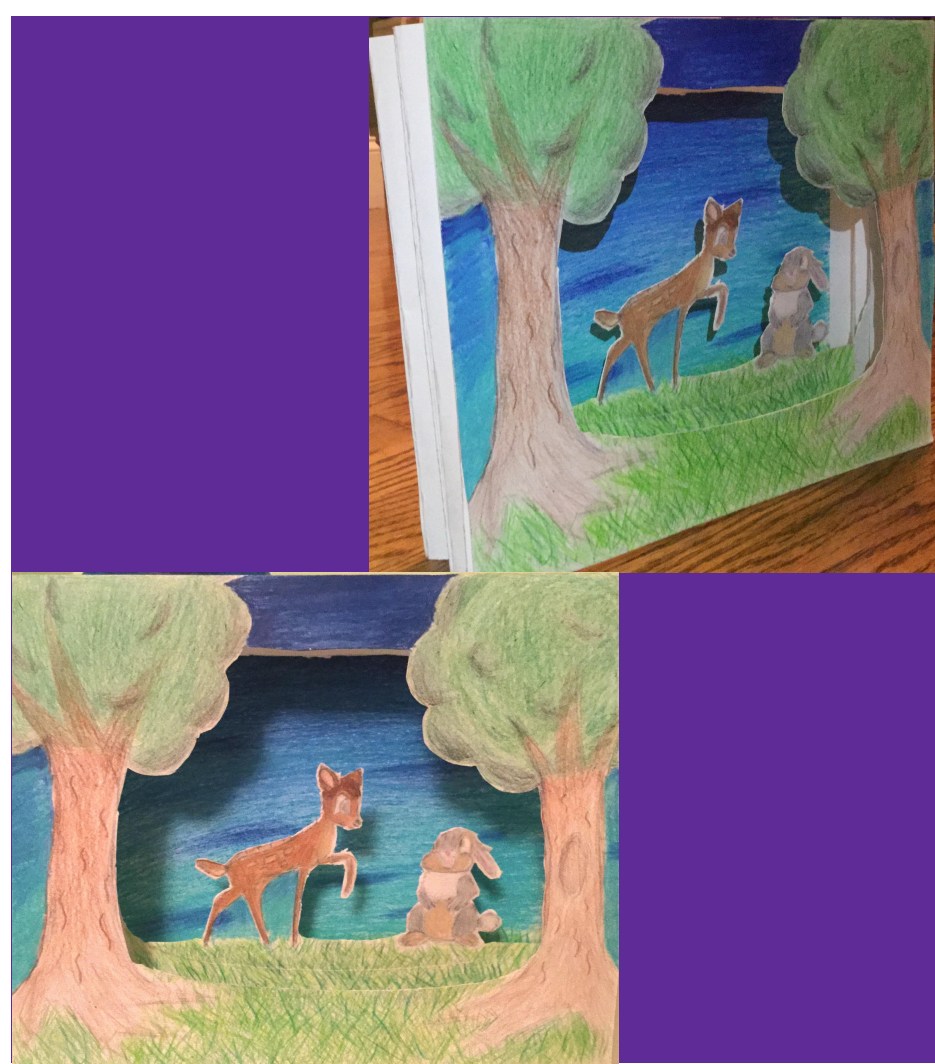

# *Innocence*

“WASN'T IT BEAUTIFUL  
WHEN YOU BELIEVED IN  
EVERYTHING”

**Bambi:** innocence in your  
childhood

**Trees/grass:** the beauty of  
nature

**The sky:** infinite possibilities

# Things that I could work on

- Making the background more realistic
- Adding more trees to the foreground
- Cutting the animals out better

# Things that I did well

- Drawing the animals
- Making the trees look somewhat realistic
- Making the grass multiple layers

*"Before Alice  
got to  
wonderland,  
she had to fall"*

In order to be in a happy place you will go through many hardships

**The Sign:** The many hard decisions you will make

**The Clock:** Shows that we have a certain amount of time, so make wise choices

**The Cat:** You're never alone

---

## Things I could work on:

- I wish I could have included a wider variety of color
- Included more Components of Alice in Wonderland
- 

## Things that turned out well:

- I think my shading was pretty good
- I like how the silhouette of Alice came out

# Fear

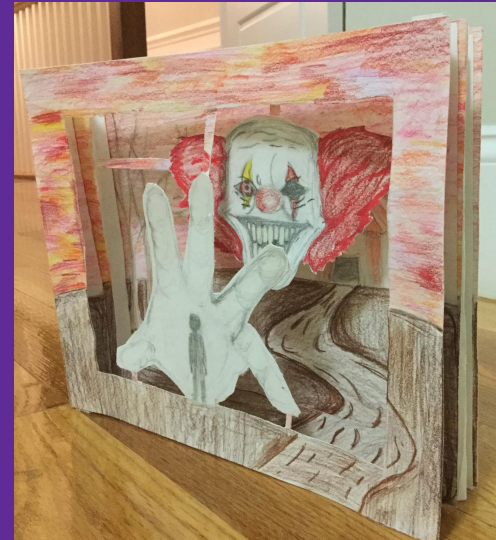

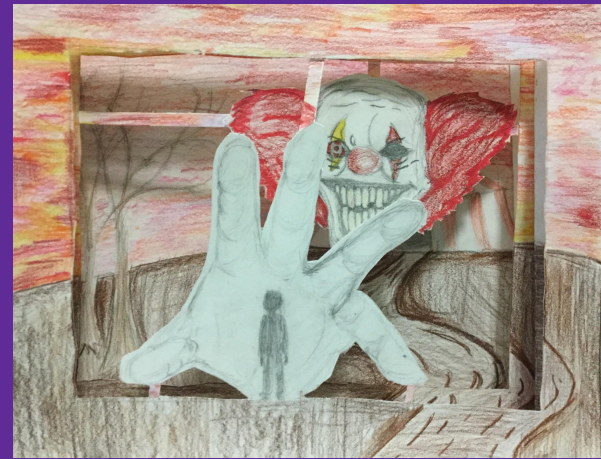

*"Stand up and face  
your fears, or they  
will defeat you"*

In order to defeat your fears you have to face them head on, or else they will stay there forever

**The path:** The easy way out of not facing your fears, just running away from them

**The clown:** Your fears

**The hand:** Your fears trying to defeat you

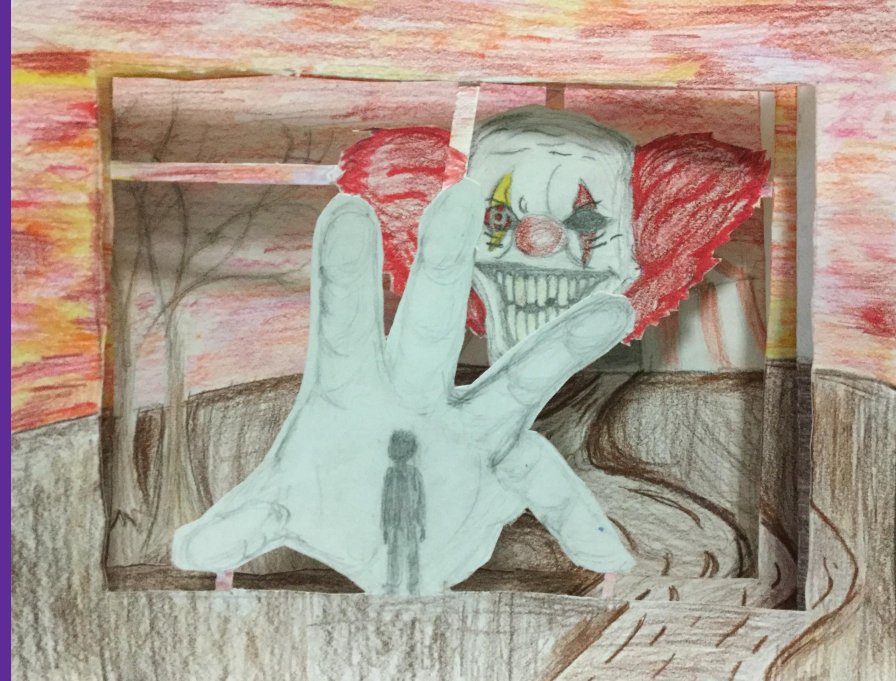

## Things I could work on:

- I could work on blending the sky some more so that it looks more realistic
- I could also work on the placement of the face and the hand
- Another thing I could work on is how the hand does not look very realistic

## Things think I did well:

- I believe that my clown's face looks very realistic and has good shading
- Also I like how I drew the path from the circus because of the shading on it
- Another thing I did well was the trees in the background

# Kindness

"Be the generation that ends animal exploitation"

**The deer:** symbolizes the nature and animals getting hurt or killed by humans

**The person:** represents all of the humans trying to hurt or kill animals and trees

**The trees:** the many animals that are still out there who could get hurt or killed

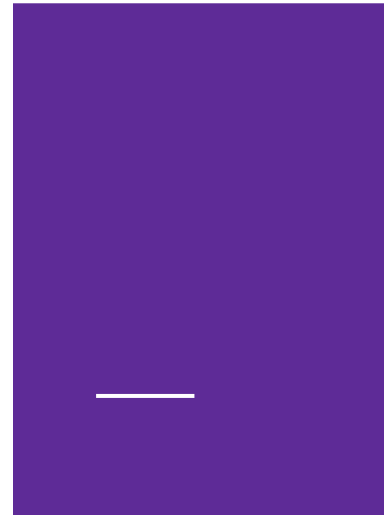

*What could I have worked on?*

- *I could have drawn and colored them better.*
- *I could have had more things on the background.*

*What did I do well?*

- *I did the shading and showing where the light is coming from well.*
- *I think I did the drawing of the deer pretty well.*

# How we helped each other

Throughout the whole project, we advised one another by giving advice on what to draw, color palettes, and Elizabeth gave Andrei advice on what to do when he cut out the clown completely, so it wasn't attached to the border, and the whole group gave advice to Mihika on what to do with the person in her project. We also made each other laugh a lot, especially when we sang as a group.
