

Dear *Abigail,*

Soon, you'll have the chance to vote in important elections that are coming up on **November 5, 2024**. Are you ready to vote? I vote because

*I'm too young to vote, but I know it is an important way to make a better world. I want safe schools and a healthy planet to grow up in. I hope you will vote!*

Along with the election for U.S. president, there will be many other important choices on your ballot. Your vote will help decide who represents you in the federal government and in Pennsylvania's government.

Sincerely, *Amy A. Age 10*
