	<b>Build a core team</b>	How to manage/ engage	Criteria for hiring			Brief info	Brief blog post	
	<b>Draft strategic plan</b>							
	<b>Fundraising</b>		Tech federal acquisition	Specific situation/ not detailed				
	<b>Set up tools to manage brigade</b>							
	<b>Develop a brand and media strategy</b>							

# Content Comparison

	Other playbooks content	Brigade Organizer's Playbook	U.S. DIGITAL SERVICE	CODE for CANADA	MAKING A CIVIC SMART CITY	changeX	18F	USDR
No content								
Less content/ hard to find	Info "who we are" About your organization			In a big text/difficult find	In a big text/difficult find			
	Info "why we do it" Mission/Purpose			In a big text/difficult find				
	Info "what we do " Processes & Services			In a big text/difficult find				
Has content	Info " who is it for "			In a big text/difficult find	Not clearly			
	Define best practices and UX as part of it	Mentioned not explained		Mentioned not explained				
	Project management content							

# Content Comparison

No content								
Less content/ hard to find	Volunteers engagement/ retention							
	Onboarding to the national network and achieving your objectives within it							
Has content	Guide: make effective practices replicable by other brigades							
	Guide: make open source projects replicable by other brigades					Course remote work		
	Running a Remote Brigade							
	How to set and achieve DEI goals					Inclusive criteria to recruit	Just for user accessibility	
	Connecting people with local government job opportunities							
	Workforce Development (resume help, career coaching, guided skill development)							

# Usability Comparison

	Usability							
No content								
	Depth	Links hard to find						
Less content/ hard to find	Shareability: can send a link of one topic							
	Topics						✓	
	Overview of content full time at every page (visibility)							
Has content	Case Studies							
	Easy to identify step by step processes & practices	Expensify						
	Templates for workshops / Processes & Practices	Strategic plan donation request						
	Good use of links redirecting to other sites	too many with key info on it						

# Key usability features analysis

This will be done with results from [cards sorting on Miro board](#) on usability features

# BOP SOAR Analysis

<ul style="list-style-type: none"><li>● Covers the main topics for civic techs</li><li>● Offers good overview on Brigade's practices</li><li>● Offers content from different Brigades experiences</li><li>● Links have a lot of key content</li></ul>	<ul style="list-style-type: none"><li>● Use the content on links to give more depth to each topic</li><li>● Research: ask Brigades what information they need</li><li>● Partner with Brigades to share case studies and create step by step guides replicable for all brigades, small or big.</li></ul>
<p style="text-align: center;"><b>Strengths</b></p> <p style="text-align: center;"><b>Aspirations</b></p> <ul style="list-style-type: none"><li>● A BOP that has very useful information to brigades of all sizes</li><li>● Offer information that is easy understand, find, share, apply</li><li>● Offer more depth on each topic with subcategories</li><li>● Connect brigades: If we use your P&amp;P as example, your Brigade's name and contact will be available.</li></ul>	<p style="text-align: center;"><b>Opportunities</b></p> <p style="text-align: center;"><b>Results</b></p> <ul style="list-style-type: none"><li>● Identified topics from the BOP that could be improved</li><li>● Found content that is missing from the BOP on peers Playbooks that can serve as example/guidance.</li><li>● Found usability solutions on peers Playbooks<ul style="list-style-type: none"><li>○ More efficient media: <a href="#">website</a></li><li>○ Structure: Offer content in layers (basics to in depth)</li><li>○ Templates for workshops, hacknights, projects</li></ul></li></ul>

# Conclusion

Below are other analysis options I made, But it seems SOAR is the best for this since it is not defining actions, or wanted results for the future, but just focusing on the information on this comparative analysis

# BOP Van Diagram analysis

## Strengths

- Covers the main topics for civic techs
- Is a great starters playbook for a new brigade
- Brigades have expertise in many P&P
- Links have a lot of key content

## Opportunities

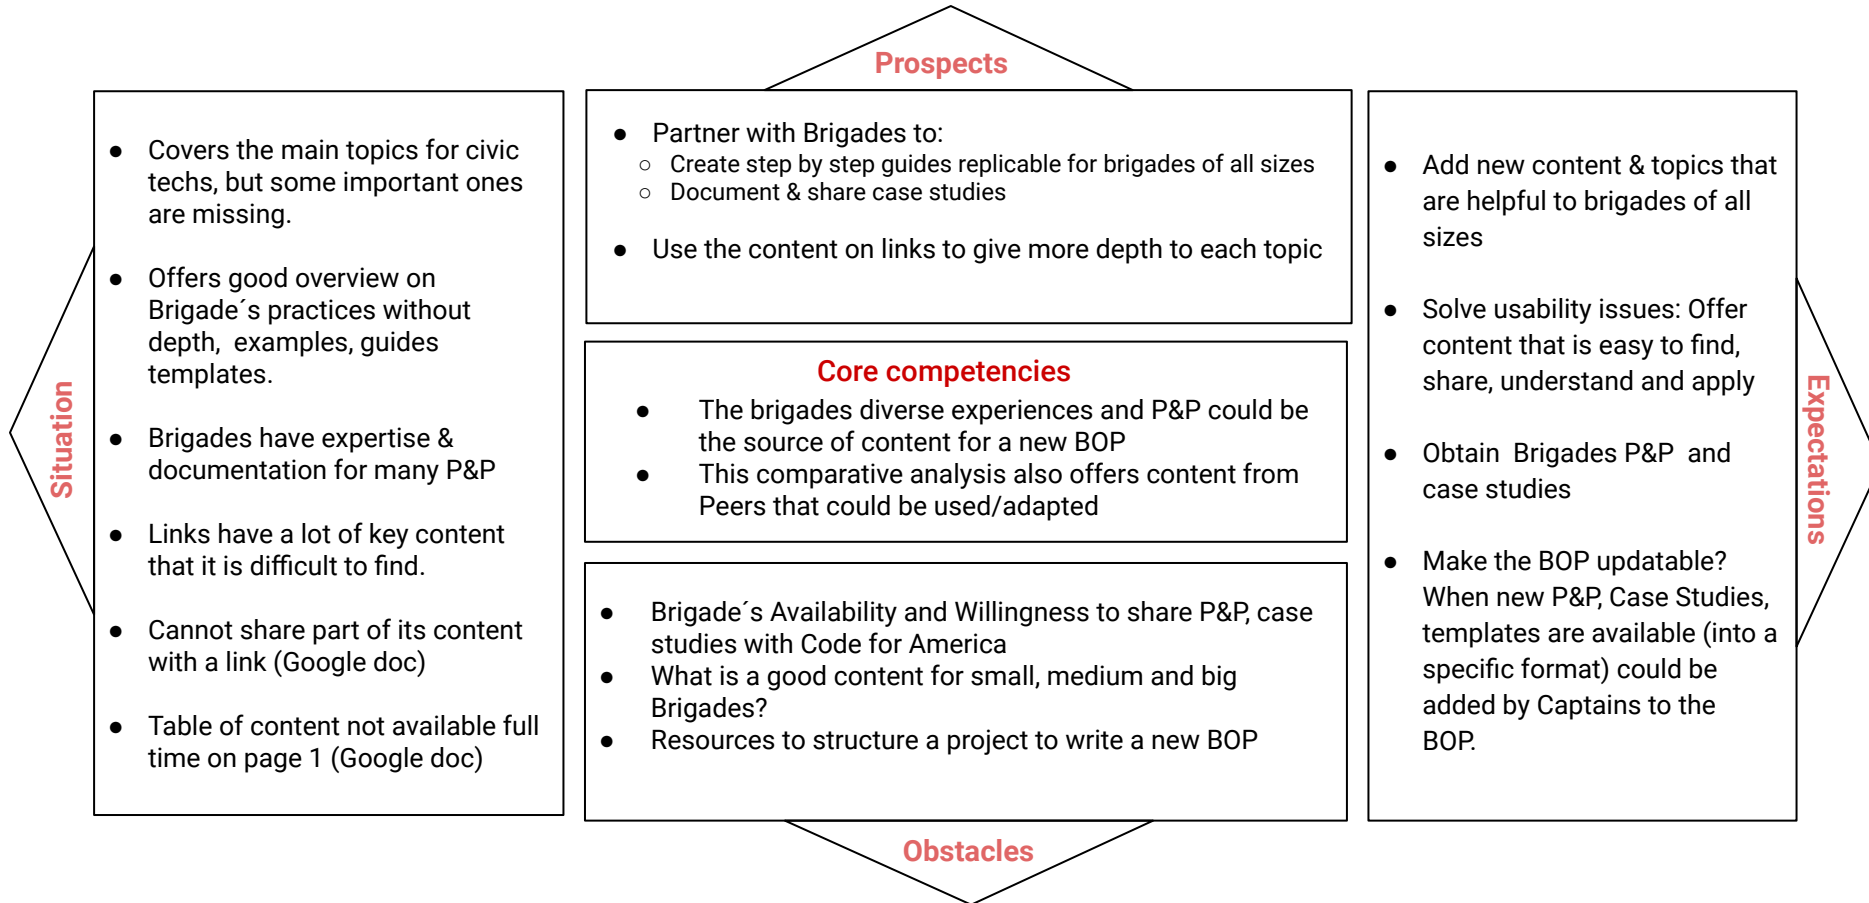

Can be put into action right now

- Use the content on links to give more depth to each topic
- Research: ask brigades what information they need
- Partner with brigades so they can share case studies
- Recognize great P&P developed by brigades and partner with them to create a step by step guide that is viable for all brigades, small or big.
- Connect brigades: Add brigade's name and contact to P&P they shared

## Do or add to Business

- Add topics to the BOP
- Find content that is missing from the BOP on peers Playbooks as example/guidance.
- Usability solutions on peers Playbooks
  - More efficient media: [website](#)
  - Structure: Offer content in layers (basics to in depth)
  - Templates for workshops, hacknights, projects
- Make sure information on the BOP is useful to brigades of all sizes
- Offer information that is easy understand, find, share, apply.

# BOP SCOPE analysis

# BOP SWOT Analysis

- Covers the main topics for civic techs
- Offers good overview on Brigade's practices
- Brigades have expertise in many P&P
- Links have a lot of key content

## Strengths

- Use the content on links to give more depth to each topic
- Research: ask brigades what information they need
- Partner with brigades to share case studies
- Recognize great projects developed by brigades and partner with them to create a step by step guides to make it replicable for all brigades, small or big.

## Opportunities

## Weaknesses

- The topics do not offer depth
- The links content is broad: you have to dig in to find related topic. Some are not working.
- Cannot share part of its content with a link (Google doc).
- It's hard to have an overview of the content full time since table of content is on page 1 (Google doc).
- It is missing important topics and information
- Does not offer templates and step by step processes

## Threats

- Have a BOP that is not used by brigades
- Have information that is either too basic or too complex to understand
- Do not get Brigades to participate by sharing P&P and responding actively to the new BOP development
