Enhancement

- **Admin panel - Form's user time spent**

Timestamp of Form's user is now available on Form's report. Forms will first record timestamp when a user starts filling in a form till click to submit form. User's time to first fill in a form appears on 'Start date' column user's time to submit a form on 'Send date' column. User's total time spent appears as the additional columns on Form's report called 'Total time spent' (shown as seconds).
