Student Name

Throughout the thirteen years of my life, I've yearned to know more about art. I've always been creative but I want to take my knowledge a step further. I believe going to High Tech High School will help me commit to my dreams of studying in Commercial and Advertising Art.

Artwork & Skills

Digital Art

I use Procreate and some Adobe Illustrator to create my art. I am also challenging myself by learning traditional art as well.

Storyboarding

Before I create my characters, I write out their storyline and see their movements through a scene.

Screenwriting

I create original characters in art. Then, I write out their actions and dialogue to match. I want to create a comic someday.

Marketing

I create stickers from my artwork and sell it for profit. Last time, I sold 50 stickers for \$100.

Artists that Inspire Me

Writers

- Agatha Christie
- Edogawa Ranpo
- Lemony Snicket

Animation Studios

- Lackadaisy
- Bones
- Ufotable

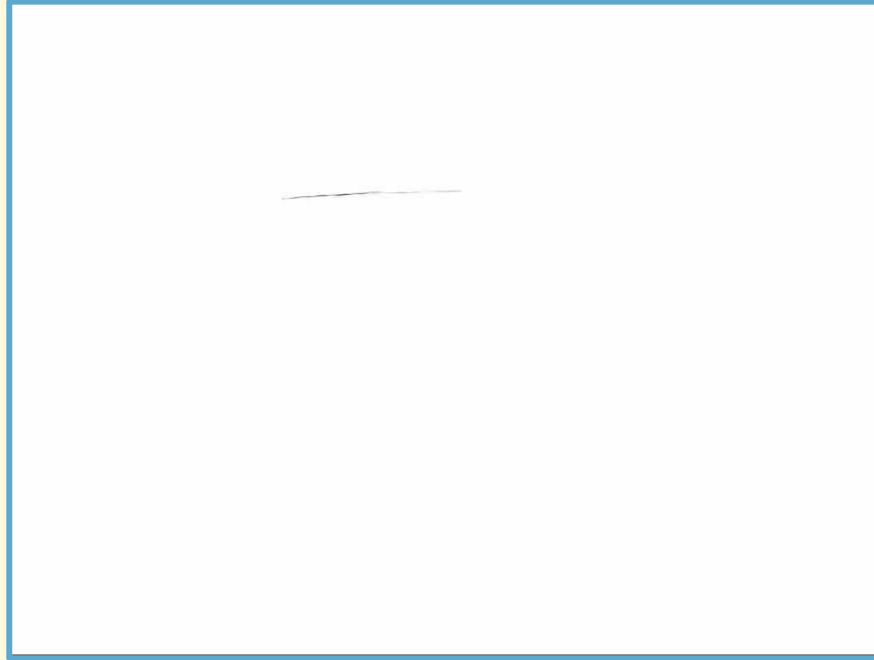

Moriah Elizabeth

Artist, Youtuber

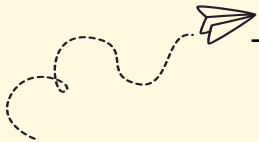

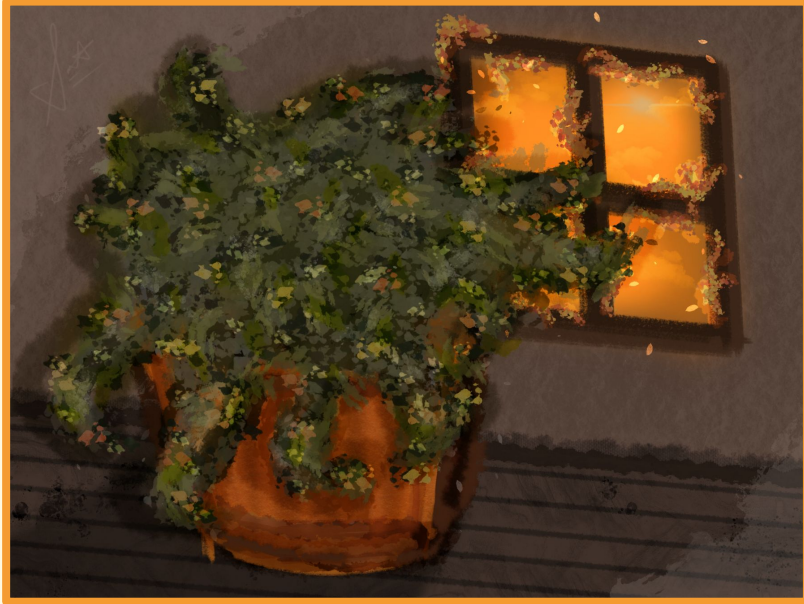

Future in Screenwriting (Advertising..?)

#messydeskofmyfutureworkplace

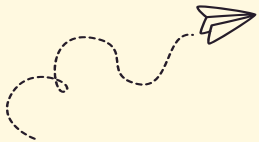

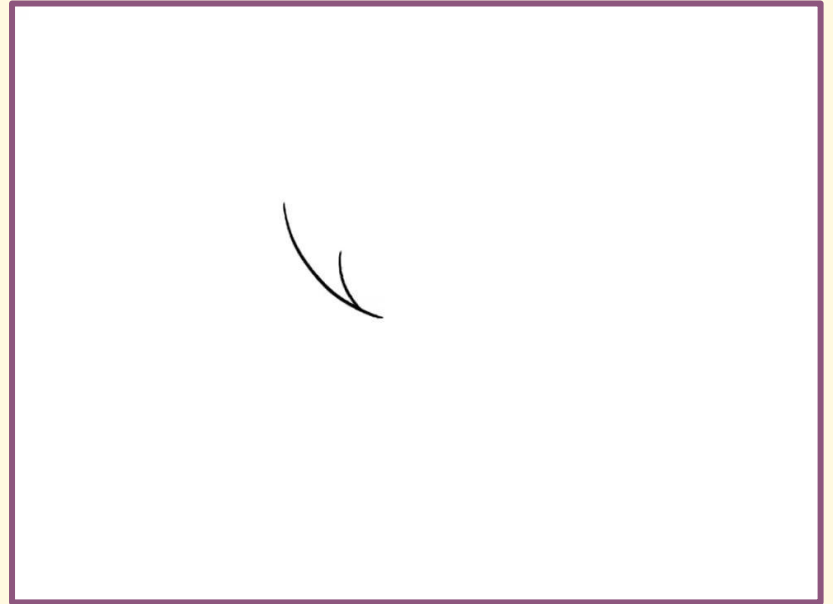

Texture Practice

Tried working with one digital brush, ended up using multiple brushes instead.

Random Drawing → Profitable Sticker

Originally it was a simple doodle on my hand, which then became multiple stickers I sold to people.

I want to attend High Tech High School so I can commit to learning more about art. I want to screenwrite and storyboard shows or movies. I believe I could achieve my dreams by attending the the Commercial & Advertising Art and/or Audio & Visual Production programs.
