

WHY Epic!?

- You can easily use it with google classroom
- It has more than 35, 000 high quality books
- It has read to me books, audiobooks, and videos
- Can create comprehension quizzes
- You can assign specific books for kids to read
- You can create collections for kids to choose books from

How to Make an Epic Account

- Visit getepic.com
- Watch [“How To Create an Epic Account”](#)

How to Add Students

- Visit [getepic.com](https://www.getepic.com)
- Watch [Adding to Students to Epic](#)
- Watch [Connecting Parents to Epic](#)

*Parents could have created their own account for their student and be using epic without you. Make sure you have parents connected to your epic classroom.

Basic Overview of Epic

- Watch this [video](#)

Creating a Collection of Books

- Another cool feature of epic is the ability to build a collection of books. You could build a collection around the topic you would like students to learn about. This week I created a collection of books about dinosaurs for my kids to learn about. You could also build a collection by GR level. Lastly, epic has collections that are already created that you might decide to share with your students.
