

# Google Maps Improvement

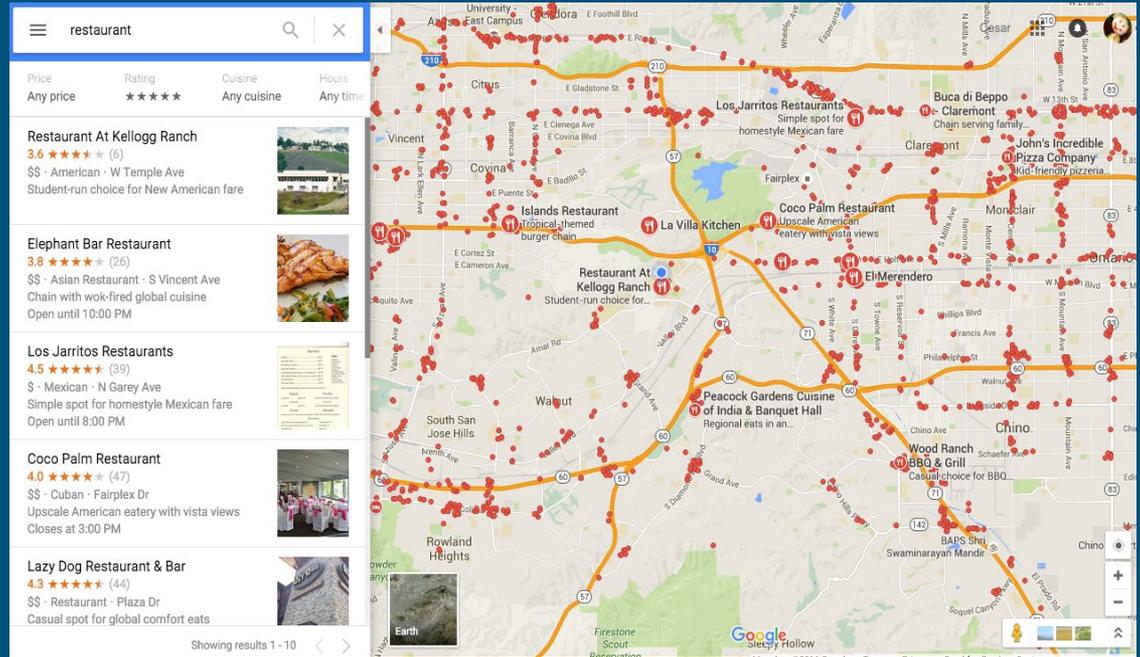

---

by Cesar Gonzalez and Iain Lee

# What is the problem?

- Cluttered
- Lack of custom filters
- Lack specifying location other than map view
- Lack of sorting
- Limited usability other than navigation usage

# The Solution

The image shows a screenshot of the Yelp website's search interface. At the top, there is a red navigation bar with the Yelp logo on the left, a search bar containing "Find restaurants" and "Near diamond bar, ca", and buttons for "Sign Up" and "Log In". Below the navigation bar, the main content area has a title "Best restaurants in Diamond Bar, CA" and a sub-header "Showing 1-10 of 1404". A "Filters" section is visible, containing several filter buttons: "\$", "\$\$", "\$\$\$", "\$\$\$\$" (price); "Open Now" (clock icon); "Make a Reservation" (calendar icon); "Good for Dinner"; "Good for Groups"; and "All Filters" (list icon). Below the filters, there are six columns of filter options: "Sort By" (Best Match, Highest Rated, Most Reviewed); "Cities" (Diamond Bar, Rowland Heights, West Covina, Pomona, More Cities); "Distance" (Bird's-eye View, Driving (5 mi.), Biking (2 mi.), Walking (1 mi.), Within 4 blocks); "Price" (\$, \$\$, \$\$\$, \$\$\$\$); "Features" (Make a Reservation, Offering a Deal, Open Now 6:03 PM, Good for Kids, More Features); and "Category" (Chinese, Japanese, Mexican, Seafood, More Categories).
