Dev Team

Introduction

Dev is all about expressing your **creativity** 🎨, **passion** 😎, and **exploring** 🧐 new tools to work with!

You will be working with us and everyone around you to **create hands-on projects** 📚

We'll keep you updated with the latest tech trends through our **insightful technical workshops** 🧠, and give you advice along your programming journey.

Dev Board Introduction!

What are we?

Our Mission

We're not here to lecture 🤓 We don't want to say:

> Here's exactly how you code. Here's exactly how you do things.

We know an hour isn't enough for that. It's why we're not a class.

Our Mission

We're here to **guide** 🛣️ and **inspire** ✨!

We want to say:

Hey, isn't it cool how this works? You can try it too!

Our mission is to inspire you to **do it yourself**. We're here to help, not lecture!

What to expect

- **Gigachad** 💪 workshops, learn all you need for your projects!

- Collaborate on **creative projects** 🤩 with others 👥 or even go solo👤 !

- Learn new and fresh technical topics! ⭐

- At the end of the semester, **show off your creation**! 👀
