We have some exciting news...  
Our CTO Dan Larimer (@bytemaster7) will be joining the London #EOSHackathon next month as a mentor and judge. Get your tickets now:

**London | EOS Global Hackathon**

September 22nd – September 23rd Register Now #EOSHACKATHON The Challenge The Hackathon Challenge will be released on the day of the event to e...

## EOS Basics.

- Most exciting technology in recent blockchain space.
- Backed by biggest names in the space.
- The biggest thing since sliced bread, and the internet.
  
- The next evolution of business
  - From shared economy to shared ownership.

EOS partners.

Bitfinex- Top Bitcoin Exchange

Houbi- Top Exchange

Bancor- Top Ethereum exchange.

EOS VC  
PARTNERSHIP ANNOUNCEMENT

A multi-billion dollar fund.

## EOS VC partners.

Peter Thiel - legendary VC, founder of paypal.

Bitmain - Largest private company in the cryptocurrency sphere, valued 12 billion dollars.

## Hackathon Study: Hong Kong.

Winners:

Not really a focus on specific topics, just reiteration on old blockchain ideas.

# Hackathon Study: Sydney.

**Focus: Environment**

## London Hackathon Speculations:

Focus: Finance.

With a focus on consumer finance products.

## Pre-Hackathon: EOS Lisbon

Focus: Tourism.

## Prizes:

- 100,000 dollars for Semi-Finals
- 1.5 Million dollars Grand prize.

## Start-Up minds needed.

For most of the history of blockchain projects, there has only been two business model.

We need more business model innovation.

Project simply raise money from speculators

Or sell tokens to promised projects. But no real revenue model.

## What I need:

- Spaces
- Sponsorship
- Judges
- Participants

## What I can offer:

- Workshop
  - Exposure to blockchain tech
- Connection to developers
  - Money can't buy developers
- Connection to influential community members
  - For whatever help you might need

## EOS workshop: preparing you for the hackathon.

- Time is scarce at the hackathon. The better prepared you are the more likely you'll succeed.
- Setting up development environment, getting familiar with development tools.
- Business model workshop.
- Blockchain application specific concepts and tools: Random numbers, secrets, token economics.
