

# **Classroom Evacuation Drill**

What do we do if we need to quickly leave the room?

# What Is It?

**A drill we might use if we need to leave the classroom quickly for a non school evacuation reason.**

**We will only need to leave our classroom for a little while, and go somewhere else in the building.**

# Why Might We Need To Leave The Room?

•

## Reason 1

Someone's body may not be safe for some reason that they can not control. If someone in our room became unsafe, we would leave so other teachers could help that person become safe again.

# Why Might We Need To Leave The Room?

## Reason 2

Someone may become sick or need certain medical help. If this happened we would leave to let other teachers and safety workers help that person become better.

# Why Might We Need To Leave The Room?

## Reason 3

There may be a classroom or maintenance emergency. This could be if a pipe or other building service would break, there is a leak in your ceiling, or the electricity in your room stops working.

# How Do We Know If We Need To Leave?

**Your teacher may use a specific word or phrase as a cue that it is time to leave the classroom.**

**Or they may use a different motion or action that works best for your classroom.**

**For Example: Mr K's class uses the phrase "Andy's Coming" (like in toy story)**

**This means everyone stops and drops what they are doing. Then quickly and quietly leaves and lines up in the hallway**

# Where Do We Go?

**We may go to a few places depending on what else is going on at school. We might go to:**

**Library**

**STEAM Room**

**Cafeteria**

**Gym A or B**

**Outside if it is nice**

# **What Will We Do While There?**

**Some things we may do while out  
of the room:**

**Teacher may read some stories**

**Have a discussion about why you  
had to leave**

**Play a game**

**Continue learning what you were  
doing in the classroom**

# **What Is My (Student) Job?**

**Listen to Teacher directions**

**Don't bring anything with you unless  
the Teacher tells you to**

**Leave quickly with a Zero voice**

**Follow Teacher to temporary  
location**

**Return to class when Teacher says  
we can**

**Show respect for the person still in  
our classroom**

# What Is The Teachers Job?

**Get students safely to a new location  
in the building**

**Communicate with principal about  
what is going on and where we are**

**Continue teaching students or read a  
story to the class**

**Take students back to class when it  
is good to return**

**Any Questions**

# **Time To Practice What We Just Learned**

Listen for directions from Teacher
