

Reopening Readiness Presentation

16 December 2020

Comprehensive Reopening Proposal

Reopening of Schools and Spikes

- [Enric Álvarez](#), researcher, Universitat Politècnica de Catalunya
 - **Studied regions**
 - **One region dropped, another showed no increase in the rate of growth, and one region decreased**
 - **Protocols in place**
- [Dr. Randa Grob-Zakhary](#), Institute for Insights, 191 countries
 - **The data suggests, “is that opening schools does not inevitably lead to increased case numbers.”**
- [Yale Study](#) - 57,000 childcare workers - No difference in positive cases for teachers for those with student or without.

Key Points of Emphasis:

- Feedback
- Protocols
- Transparency

Questions and Answers
