Agenda: Events in Virtual Locations

- Many Opportunity providers are moving to online delivery of led or taught classes
 - typically streaming video via Facebook, Zoom, etc.
- Dramatic explosion in importance because of COVID-19

Multiple related changes proposed

- [Virtual Locations](#)
- [VideoObjects and/or OnDemandEvents](#)
- describing [required equipment](#)
- describing [participantInteraction](#)
- [eventAttendanceMode](#)
- [maximumVirtualAttendeeCapacity](#) and related properties
- [EventMovedOnline](#) Event status
- [Guidance](#) regarding the above

Virtual Locations

- <https://github.com/openactive/modelling-opportunity-data/issues/224>
- Open questions:
 - Should this simply be part of a `location` array?
 - though note semantic and tooling difficulties here
 - Does `virtualLocation` need to be an array?

Asynchronous video

- <https://github.com/openactive/modelling-opportunity-data/issues/228>
- Open questions:
 - VideoObject vs OnDemandEvent
 - ... or a composite?

Required Equipment

- <https://github.com/openactive/modelling-opportunity-data/issues/229>
- How to convey what equipment is required
- nomenclature
 - requiresPersonalEquipment
 - participantRequiresEquipment

Interactive Modes

- <https://github.com/openactive/modelling-opportunity-data/issues/230>
- Three values
 - ‘Required’, ‘Optional’, ‘Unavailable’
 - or ‘Preferred’ instead of ‘Required’?

eventAttendanceMode

- <https://github.com/openactive/modelling-opportunity-data/issues/225>
- Are the [semantics rules](#) sensible and sufficient?

maximumVirtualAttendeeCapacity and remainingVirtualAttendeeCapacity

- <https://github.com/openactive/modelling-opportunity-data/issues/226>
- Open questions
 - How do we indicate unlimited capacity, if necessary?
 - Should we rename the existing maximumAttendeeCapacity and remainingAttendeeCapacity to maximumPhysicalAttendeeCapacity and remainingPhysicalAttendeeCapacity?

EventMovedOnline

- <https://github.com/openactive/modelling-opportunity-data/issues/227>

Guidance

- <https://github.com/openactive/modelling-opportunity-data/issues/231>
 - Which fields should be REQUIRED, and which RECOMMENDED or OPTIONAL?

AOB
