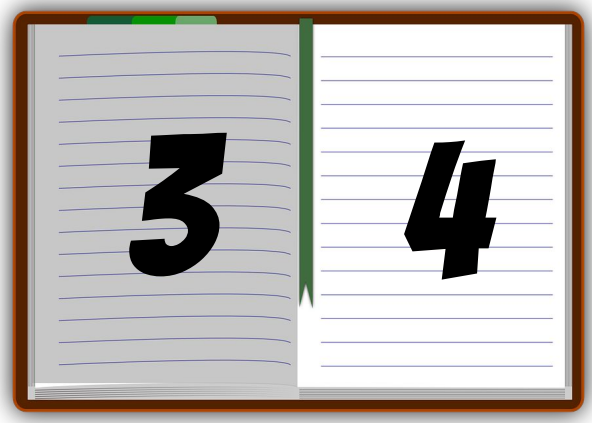
25	43

Notebook Setup

(Concept Progress Charts)

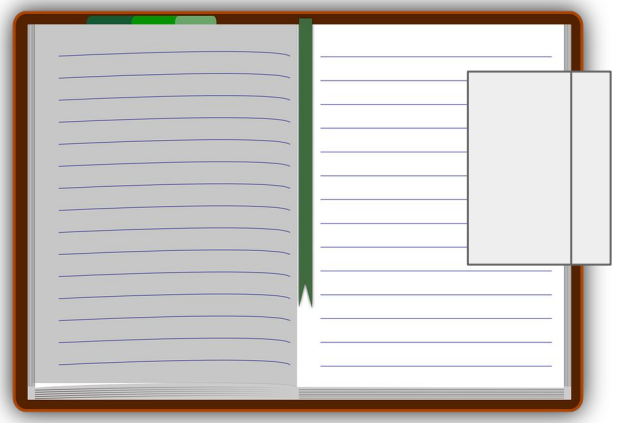


Trim if necessary, glue term one and term two concepts across from one another.

Glue term three and term four across from one another on the next page.

Notebook Setup

(Calculating Unit Rates Tab)



Cut out (if necessary) and glue the “Calculating Unit Rates” tab so it is sticking out of your notebook.

At the Supermarket

Which of the two stores has a lower price for corn?

Gourmet Grocery	*Shop and Run*
7 for $3	**5 for $2**

Try this out on your own on a communicator…make sure you write down what strategies you are using!

At the Supermarket

Let’s Share Strategies!!!

How Much Does It cost?

Is there a difference between how these products are priced at the store?

What do you notice? What do you wonder?

The Best Grocery Store Ever!

Have you ever wondered why you can take a bunch of bananas and break it into what you want, but you can’t do that with other things, like soda?

This one can!!!

I found this 6 pack of apple juice that costs $3.29. I only need 5 cans! How much would the 5 cans cost me?

Write your solution in your Unit Rates section of your notebook

# of Cans				
Cost				

What could we fill in to this ratio table to help us calculate the cost per can?

How much
should be charged?
LCRN EGGS
2 29
1-DZN
Write your solution in your
Unit Rates section
Of your notebook

# of Eggs				
Cost				

What could we fill in to this ratio table to help us calculate the cost per egg?

Which is the better deal?

On Call	Talk Time
$3\frac{1}{2}$ hours for $10	$\frac{1}{2}$ hour for $1.25

Write on Looseleaf Paper

Using Ratio Tables/Unit Rate to Compare

On Call
