About

iPad Media Camp is a three day hands-on workshop designed to inspire and equip educators to facilitate student media projects using iPads. iPad Media Camps are led by Dr. Wesley Fryer (@wfryer) and Shelly Fryer (@sfryer). Participants should BYOI (bring your own iPad) to camp and install required apps in advance.

Narrated Slideshows

support.casady.org/teacher/modules/narrated-slideshows

Overview

A narrated slideshow can be an effective way to communicate ideas and concepts to your students. [While you can create a screencast and record your narration over advancing slides](#), that can be a more challenging "performance" and it can be harder to edit / make changes. The options below allow for easier editing of slide narration. Whatever method you use, remember to "chunk" your content into digestible 'bites' for students. This generally means videos no longer than 4-5 minutes. When you need to share more content, record several videos / narrated slideshows!

Option 1: Explain Everything for iPad

If you have an iPad, use [the app Explain Everything](#) to import a slideshow from Google Slides or PowerPoint, and add narration slide-by-slide. All Casady faculty/staff have access to Explain Everything via our Security locker / app store. [This 3 minute video](#) provides an overview Explain Everything.

[Check out this 6 part video tutorial series](#) for an in-depth dive into how to use Explain Everything.
