## What Is No-code?

**Nocode** is like building with digital Lego blocks. You can create websites, apps, automations & other tech stuff without writing code.

# A STORY OF A SUPPLY CHAIN STARTUP FOUNDER WITH \$100K SEED FUNDING.

Hello Babatunde,  
I trust your week is off to a great start.

I chatted with [Ibraheem](#) last Friday, and he is interested in meeting your team to help you with the no-code integration of your operations.

You can follow up on this thread to set a meeting with him to know the next steps.

Best.
